Counties Confer On Taxes

They Must Decide On How to Approach Utilities' Refusal To Pay Special Tax

JEFFERSON CITY (AP)—Prosecuting attorneys of a dozen Missouri counties met here today to see what could be done to collect special tax levies from some railroads.

Pettis County Prosecuting Attorney Harold W. Barrick attended the meeting, not to represent the county officially but to acquaint himself with the general problem. Pettis County is involved now that the Missouri Pacific Railroad has informed County Collector Raymond Wilder that the railroad will withhold payment of road district taxes, probably amounting to \$1,034.83.

They closed themselves with Robert Welborn, an assistant to Atty. Gen. John M. Dalton, to work out their strategy. Welborn said it probably would take most of the day.

The meeting was called by John Hosmer and Scott Wright, prosecuting attorneys of Webster and Boone counties, respectively. Both their counties are suffering because railroads operating through the areas have refused to pay special utility taxes for the financing of road districts.

Hosmer first planned to ask the Supreme Court to reconsider a key decision handed down last Sept. 12. But when it became apparent several counties were facing the same problem the meeting was called to work out a joint strategy.

The Supreme Court held in a Jackson County case that the Kansas City Power and Light Co. was not liable for payment of a special levy by a fire district in the county.

Since then, several railroads, including the Missouri Pacific, Washburn and Frisco, decided they need not pay special levies for such governmental subdivisions as special road districts.

When county collectors received the roads' 1955 tax checks a few days ago—less the amount of the special taxes—there was an uproar. Now, apparently, the question is whether the counties should go to the Supreme Court for reconsideration of the September case or go to the legislature for a change in the taxing laws.

Among counties represented at the meeting were Boone, Audrain, Bates, Callaway, Stoddard, Monroe and Osage.

Cance Pool Funeral Services Are Held In Jefferson City

JEFFERSON CITY (AP)—Cance A. Pool, 56, a quiet, industrious man who always shunned the headlines for himself, was laid to rest yesterday in Riverview Cemetery.

State offices closed for the afternoon and state officials from Gov. Phil M. Donnelly on down crowded the First Christian Church for the funeral services.

Pool was the governor's executive secretary when he died Christmas Day after being ill only a few weeks. Formerly he was editor of the Jefferson City Capital News, editor of the Missouri Blue Book, chief clerk in the attorney general's office and publicity man and secretary of the Democratic State Committee.

Richard R. Nacy, Jefferson City banker and former Democratic state chairman, lauded Pool's loyalty and unselfish service to others. He called him a great citizen with unmatched ability to harmonize conflicts and help others.

"He probably knew more about the government of Missouri than any man in the state," Nacy said. "He knew the personal and political problems of more people in Missouri than anyone else."

Caught Napping

The balmy weather has left many people off their guard against colds, and this sudden, windy chill has promised a sniffling New Year.

Mostly cloudy and much colder tonight; temperatures falling to near 10 above by Friday morning; partly cloudy and cold Friday, with high near 30.

The temperature at 7 a.m. was 32, 25 at 1 p.m. and 24 at 2 p.m.

The temperature one year ago today, high 31, low 22, with .59 inch of snow; two years ago, high 43, low 28; and three years ago, high 50, low 32.

Stage at Lake of the Ozarks, 51.2, fall 1.

Humphrey Asks Benson To Study ASC

Says He's Shocked By the Committee System's Condition

WASHINGTON (AP)—Sen. Humphrey (D-Minn.), saying he is "shocked by the conditions" in the Agricultural Stabilization (ASC) Committee System in Missouri, has written Secretary Benson that "this is a matter of such grave concern that it requires your personal attention."

"I am led to believe that there are open violations of law, particularly insofar as maintaining county managers on the federal payroll despite the fact that those managers have been dismissed by the county committees," Humphrey wrote Benson.

Humphrey's Senate Agriculture subcommittee conducted hearings in Jefferson City last month in connection with the farmer committee or ASC committee system.

Missouri's Democratic senators, Symington and Hennings, contend "many suspensions and dismissals" of elected ASC county committeemen by the appointed state committee "strike at the heart of elections." They have asked Benson for a review by an impartial committee.

"It is apparent that someone is wrong. Something must be done about it," Humphrey wrote Benson. He said his committee intends to conduct further hearings and asked Benson and other department officials to participate, adding:

"As I review the record thus far, there are completely conflicting views on interpretations of regulations and statutes that have been given to use by the departmental witnesses and your officials in Missouri."

"The Missouri state committee officials insisted time after time they were acting in accord with the policy of the department of agriculture and the rules and regulations that are prescribed by the department."

Defense Secretary Skeptical About Russia's Budget

LOS ANGELES (AP)—"I'm skeptical of reports that the Russians have reduced their spending," Defense Secretary Wilson said, commenting on a Soviet announcement that its 1956 military budget has been cut 10 per cent.

"When you talk about percentages you've got to know where you're starting," he told newsmen yesterday. "We've cut our budget too since the Korean War."

Wilson, who arrived to act as grand marshal for Pasadena's Rose Parade Jan. 2, said the United States has cut defense spending from a peak of 42 billion dollars during the Korean War to a present \$35 billion.

"That's a lot more than 10 per cent," he said.

Coast-to-Coast Police Teletype Opens Today

ALBANY, N. Y. (AP)—A coast-to-coast police teletype network opens today, joining New York and 33 other states and the District of Columbia.

Gov. Averell Harriman was scheduled to send the first message.

Supt. Francis McGarvey of the state police said yesterday that the remaining 14 states would join the network as soon as their budgets allowed. It extends from Maine to California and from Georgia to Washington state.

Harriman's office said the teletype was one of the fastest and most accurate means devised for apprehension of criminals who crossed state lines. It is expected to cost less than telephone and teletype communication.

Christmas Decorations Should Be Removed By Saturday Evening

Cline Cain, chairman of the Christmas lighting in the downtown section, would like the cooperation of the merchants in seeing that all Christmas decorations are down by Dec. 31.

Cain was very pleased with the way the downtown district was decorated this year, with many firms putting their lights up higher and some outlining their buildings at the top. There were also several who used new ideas in their decorations which added to the attractiveness of the shopping area.

Two Are Hurt In Car Wrecks On Thursday

One Car Rolls Over On Perilous Curve; Other Hit by Truck

One person was injured about 11:15 a.m. Thursday in a one-car accident on the top curve of the Heath Creek Hill just south of Marshall Junction on Highway 65 when the car rolled over and barely missed dropping off into the deep gulley where several persons have been injured and a number killed in recent years.

Mrs. Norine Meneley, 48, San Antonio, Tex., suffered facial cuts, bruises and a neck injury. She was taken to Bothwell Hospital in the Gillespie ambulance, where Dr. D. R. Edwards rendered medical treatment.

The car, a 1949 Nash sedan, was driven by her husband, L. S. Meneley, 66, who with their daughter, Linda Jean, 9 escaped injury.

According to Mr. Meneley they were enroute back to their home from Peoria, Ill., their former home, where they spent Christmas. He was headed south on the highway and upon reaching the extremely sharp curve went off the highway onto the shoulder, striking some loose gravel.

He lost control of the vehicle and it turned over once and stopped on its top. The car was towed to Sedalia by the White wrecker.

Sgt. E. W. Van Winkle of the State Highway Patrol and Troopers Richard Jeos and Robert Stockdell investigated the accident.

Mrs. Evelyn Cochran, 28, Beaman, was seriously injured about 8 a.m. Thursday in a two-car collision on the Longwood Road and the Georgetown cut-off. E. P. Schupp, 1839 South Warren, driver of the other vehicle escaped injury.

Mrs. Cochran was thrown from the car she was driving to the blacktop pavement. She suffered multiple abrasions about her face, hands, arms and body. She also suffered a fractured pelvis and a fracture of the left collar bone.

She was rushed to the Woodland Hospital in the Gillespie ambulance, where Dr. R. A. Enoch and Dr. K. L. Holden rendered emergency treatment and took X-rays which revealed the two fractures.

The accident occurred as Mrs. Cochran was driving north on the Longwood-Beaman road in her 1949 Plymouth convertible while Schupp, driving a 1951 Ford pickup truck, was headed east on the cross road.

The rear left fender of the convertible was smashed and the front bumper of the Ford was broken and torn loose. The convertible skidded back and forth down the blacktop before coming to a stop, and a spare tire was thrown from the vehicle and rolled far into a field.

Confesses to Stealing Two of Buddha's Arms

KOICHI, Japan (AP)—Toshio Yokota, 30, a vagrant, today confessed that he stole two arms from the 1,145-year-old wooden statue in an Osaka temple. He said he thought the statue's six arms were too many even for Buddha.

Crippled Children's Center Needs Help

Mrs. Rudolph Swope, director of the Crippled Children's Center at the Nurses Home, Bothwell Hospital, states the Center is soliciting volunteer help from women to work at the Center one afternoon a week for the next eight weeks session beginning Jan. 4.

There will be a leaders training meeting at 7:30 p.m. Friday at the Center at which time those interested in working or learning more about the Center may attend.

The Center needs general helpers to assist the children in various activities along with women who have special ability in the art of handicraft to teach the children.

Ike Follows Orders, Gets Some Exercise

KEY WEST, Fla. (AP)—President Eisenhower, vacationing here, is doing just as the doctors said: getting more exercise.

He started right in after arrival from the capital yesterday afternoon.

After lunch and a nap, he practiced golf shots for about 30 minutes on the baseball diamond close by his living quarters on the naval base here. Then he took an hour-long stroll, visiting a dock where a number of submarines were moored.

He showed special interest in one of the subs, the Amberjack, which right after World War II was skippered by his naval aide Cmdr. Edward L. Beach. Beach, who was along on the walk, described some of the features of the submarine.

The President appeared relaxed in lightweight khaki trousers, khaki sweater and a dark blue sport shirt. The sun was bright and the temperature in the middle 70s.

Along with him on the stroll were his personal physician Maj. Gen. Howard M. Snyder; his youngest brother Dr. Milton S. Eisenhower, president of Pennsylvania State University; and a few White House staff members, Beach among them.

The President's golf practice attracted a small gallery. James C. Hagerty, White House press secretary, said it was the first time since Sept. 23—the day before his heart attack—that Eisenhower had done anything more than putt.

The nine-iron club which Eisenhower used required a three-quarter swing and there was nothing restrained about it. He hit about 30 balls 50 to 80 yards.

On his walk around the base later the President shook hands with several enlisted men and officers who wished him well. One sailor got a snapshot after asking Eisenhower to pose.

"I don't want to miss a chance to have my picture taken," Eisenhower said with a chuckle.

May Mean Tougher Soviet Policy—

United States Officials Are Astonished At Khrushchev's Direct Attack on President

WASHINGTON (AP)—United States officials were astonished at Nikita Khrushchev's direct attack today on President Eisenhower. They thought this action by a top Soviet leader may mean the development of a still tougher line in Russian foreign policy.

Experts here found it significant, moreover, that the immediate reason for the personal attack was a rather routine Christmas message in which Eisenhower spoke of prayers for freedom in Eastern Europe.

Khrushchev's attack on the President indicates the satellite front is an extremely sensitive one for the Soviets. This in turn suggests they may in fact be confronted with greater problems of maintaining Communist control there than the West knows about in detail.

Authorities were not particularly impressed initially by Khrushchev's boasts of more powerful atomic weapons. The propaganda line of a powerful Soviet Union standing confident and powerful in a world of waning capitalism is one which Moscow has been developing with great enthusiasm in recent months—even before the summit conference at Geneva last July.

Carriers Become Businessmen—

The Democrat-Capital Begins Little Merchant Plan Jan. 8

Sedalia's newest businessman—the Little Merchant newspaper boy—will make his appearance on Sunday, January 8th.

On that date The Sedalia Democrat will begin the circulation operation known as the Little Merchant Plan among its carriers.

More than 90 per cent of the nation's newspapers use this plan. They are proud of the record these young businessmen have made.

This plan is properly named, for with it the newspaperboy who delivers your Democrat is an independent merchant—he purchases his newspapers from The Democrat and resells them to his

customers at a profit. He is in business for himself—a full-fledged merchant.

The Democrat carrier-salesman will receive valuable training in business procedures and salesmanship. He will learn to handle his own money, to meet people, to handle records—in short, to run his own business.

Proper education of our young men to the Little Merchant Plan will require time and personal supervision. To effect this, one route at a time will be converted and about three months will be required to change the entire city distribution.

With this plan will come a change in the Democrat collection system. Under the present operation, adult collectors have collected from customers, but under the Little Merchant Plan the carriers will collect from their customers.

Duplicate collection records will be maintained at the Democrat office to insure accuracy in the records and to help the carrier realize his full return.

ST. LOUIS (AP)—The Navy's non-flying Demon jets will complete the first leg of their southern trip to two naval stations for ground training use today—unless they run into more bad luck.

The first leg for the 21 planes, each costing more than a million dollars, is a 16-mile trip over busy streets from McDonnell Aircraft Corp. to the Mississippi River, where they go into barges.

Eight of the big streamlined jets, their wings folded, made it yesterday in two convoys, hauled by tractors.

Plans called for the movement of three convoys, but several minor mishaps changed that.

One bunch of planes was temporarily halted when two of the tractors broke down. Traffic piled up on the heavily-traveled North St. Louis Thoroughfare and hundreds of onlookers watched in amazement.

A radio telephone went dead in the car of the aircraft company official directing the movement. He called for another car but it developed motor trouble and needed some pushing.

Sixteen of the Demons are going by barge to the Naval Air Training Center at Memphis, the other five to the Naval Air Station at Pensacola, Fla.

McDonnell built the frames for the F3H jets and the underpowered engines were manufactured by Westinghouse Electric Corp.

No blame was placed on anyone in a congressional investigation of the failure of the project, which began under the pressure of the Korean War.

The planes are outmoded now and it wasn't considered feasible by the Navy to design more powerful engines for them.

Chief Neighbors Orders Strict Traffic Policy

Sedalia is just two days away from having a perfect year—a year without a traffic fatality and the second straight year. If at all possible, it will be another such year with a clean record in accordance with strict orders issued by Chief of Police Edgar Neighbors.

Today police officers were told to keep a sharp eye on all traffic violators, especially those who insist in breaking the speed laws and those who think they can drive a motor vehicle while under the influence of intoxicating beverages.

"Although our accident rate is up, up far too much, we have been fortunate in not having a single person killed this year as a result of a traffic accident. I intend, and hope, to see this year end without such a blot on our record," Chief Neighbors said.

Accidents have soared to nearly 100 more than 1954 in Sedalia. In 1954 the city had 467 accidents reported and investigated by the police. This year up to noon Thursday there were 553 accidents reported and investigated by the local police.

"We felt we had been rather firm in our enforcement of the traffic laws this past year, but in spite of our endeavors more accidents have occurred. Plans for 1956, as far as the police department is concerned, call for a more rigid enforcement," Chief Neighbors reported.

Neighbors said today that he was not concerned with the fate of all German free elections.

And he turned down every effort by Dulles and the British and French foreign ministers to obtain some lessening of Iron Curtain barriers between East and West.

Dulles became pretty well convinced then that the Soviets were extremely sensitive to any maneuver which would tend to increase freedom in the satellite countries or weaken in any way the hold of Red leaders on the captive peoples in the Iron Curtain area.

Whatever else it may mean, the attack on Eisenhower today appears to fit into that pattern.

Segregation Backers Plan Organization

They Seek to Bind Forces Into One Big Political Stick

MEMPHIS, Tenn. (AP)—Final plans were laid today for a co-ordinating group to try to bind the South's various pro-segregation forces into one big political stick.

With Sen. James Eastland (D-Miss) and Georgia's Atty. Gen. Eugene Cook lending an assist, the group was formed last night by the Federation for Constitutional Government at a closed session.

A statement issued later said the FCG "aims to coordinate the efforts of patriotic organizations throughout the nation for protection of constitutional rights."

The same 45 persons present from 12 Southern states approved a resolution supporting Virginia's proposed "doctrine of interposition," which comes before the state's Legislature next month.

Basically, the doctrine aims at proposing a constitutional amendment prohibiting the states from operating racially separate public facilities. If three-fourths of the states failed to ratify this amendment, Southern states would assert that the Supreme Court on segregation was void. Pending settlement of the issue in this fashion, the interposing states would declare that as a matter of right they recognized no obligation to comply with court decrees they regard as unconstitutional.

The resolution was introduced by Rep. L. Mendel Rivers (D-SC).

The FCG elected an executive committee consisting of one member from each of the states represented. It was empowered to "organize an aggressive campaign."

J. U. Barr, a New Orleans businessman, is interim chairman of the FCG which had its beginning at a meeting in Jackson, Miss., last Jan. 21-22.

Sen. Eastland said all attending the closed meetings were sworn to secrecy and that all public statements would have to come from Barr.

Wants Divorce From Indonesia President

JAKARTA, Indonesia (AP)—President Soekarno's wife No. 1 is demanding a divorce, sources close to the palace said today.

She is 30-year-old Fatmawati, who left the presidential palace after her husband took a second wife last year.

Indonesian women raised a storm of protest when they learned Soekarno had secretly married Hartini Suwondo, a pretty 34-year-old divorcee, in June, 1954.

The Moslem religion and Indonesian civil law make it legal to have four wives. But Indonesian feminists, who oppose polygamy, claimed the second marriage was unfair to Fatmawati and pledged their support to her as First Lady.

To handle the increase in calls, 76 operators were kept busy, or 17 more than last year's 59.

Part of this gain can be traced to the fact that the Sedalia exchange has 411 more telephones than last year. The total number of telephones now in the Sedalia exchange is 10,033.

Green Ridge Couple Entertains With Party

Mr. and Mrs. Dennis Brownfield were hosts at their annual Christmas dinner, Sunday, Dec. 18, at their home in Green Ridge. At noon a turkey dinner with all the trimmings was served to their children and their families.

Those present were: Mr. and Mrs. Carl Drenon and Mr. and Mrs. Harlan Gamber and children, Sedalia; Mr. and Mrs. Claude Keithly and sons, Mr. and Mrs. Lewis Brownfield and daughter, and Charles Brownfield, Kansas City, Kan.; Mr. and Mrs. Howard Brownfield and children, Sweet Springs; Mr. and Mrs. Arnold Brownfield and sons, Hughesville; and Mr. and Mrs. Lloyd Arnett and sons, near Green Ridge.

An exchange of gifts was enjoyed. The afternoon was spent in conversation.

Smithton Christian Church Has Program

The Smithton Christian Church presented a Christmas program at the church the evening of Dec. 23. Edwin Danforth played the opening selections. The congregation sang "Joy to the World." The Rev. Talmadge Hale offered the devotional before Margie Sutherland presented a piano solo. After readings by Gordon Sutherland and Jimmie Reid, Gordon Sutherland sang a solo. Mrs. William Estes presented a piano selection and Edwin Danforth presented a selection before the pageant. The cast of "The Birth of Peace" included Margie Sutherland, Billy Lee May, Buddy Cole, Helen Caton, Velma Mae Cole, Annie Estes, and the pianist, Mrs. Leonard Tripp.

Fortuna WSCS Meets For Holiday Program

The W.S.C.S. of the Fortuna Methodist church met at the church on Dec. 14 with 22 members and two visitors present.

Mrs. Zora Charles, president, was in charge of the business meeting. Mrs. Victor Hofstetter was in charge of the program.

Mrs. J. P. McDaniel read the Christmas story from the book of Luke. Several Christmas carols were sung and a duet was sung by Mrs. Zora Charles and Mrs. Dan Johnson. A reading was given by Mrs. Claude Bridges.

Christ's Birthday Party was celebrated. A candle representing Christ was on top of a large angel food cake with twelve candles around it. As a candle for each month of the year was lit those having birthdays in that month placed a gift under a decorated Christmas tree. The gifts will be sent to the Bisti Methodist Mission School for Indian children in Farmington, N. M.

Smithton School Has Musical Program

Grades seven through twelve of the Smithton R-VI school presented a musical program Dec. 22 in the high school auditorium, under the direction of Harold J. Johnston. Vocal soloists on the program were Carol Ann Dunham, Vivian

McMullin, and Margie Sutherland, sopranos; Margaret Hyatt, Virginia Grimes, and Lulu Gibson, altos; Hubert Cook and Johnny Rush, tenors; and Robert Hilteburg and Philip Monsees, basses.

The High School Band presented three numbers, one of which featured the majorettes. The Junior High Chorus sang two Christmas

selections. After the chorus had sung, the Boys Glee Club sang. The Girls Glee Club concluded the first part of the program by singing three numbers.

The cantata, "A Christmas Blessing," was then presented. It was divided into three parts with ten solos included.

Great wind-up to a great year -

Buick Builds

800,000

Highest peak of all time
points to Buick as the buy of the year!

LATEST BULLETIN: Buick's total new car production for the United States and Canada in 1955 is crowding 800,000 at the time this goes to press.

Every time you traveled America's roads and streets and highways this year, you saw Buick history being made.

You saw more new Buicks than ever before — because more new Buicks were bought and registered in 1955 than in any previous year since car-building began.

You saw big, beautiful new Buicks in ever-increasing numbers because this year Buick outsold, by far, every other car in the land except the two most well-known smaller cars.

And if you had taken a look behind the scenes, you would have witnessed new Buicks being built at the rate of over three cars per minute to meet the public demand.

As Buick dealers, we recognized this mounting demand from the first — and nurtured it

to the fullest benefit of the buying public.

For, with our growing volume, we were able to offer bigger trade-in allowances — and we did. So more and more people, attracted to the great new Buicks, found it easier and easier to buy them.

Today, the demand continues upward. With the much-wanted 1956 Buick — introduced last month, and now in full production — this calendar year closes with Buick building toward an all-time high of 800,000 Buicks. The New Year looks like a million.

So MAYBE you ought to look into Buick for 1956.

Maybe you ought to look into that stunning new sweep-ahead styling that's winning such raves. Maybe you ought to try the wholly new sweetness of Buick's superb ride — and the precise sureness of handling that goes with it.

Maybe you ought to sample the lofty new horsepower that come from Buick's big new 322-cubic-inch V8 engines — and the brilliant new response of an advanced new Variable Pitch Dynaflo* that brings you double-action take-off and a big boost in gas mileage.

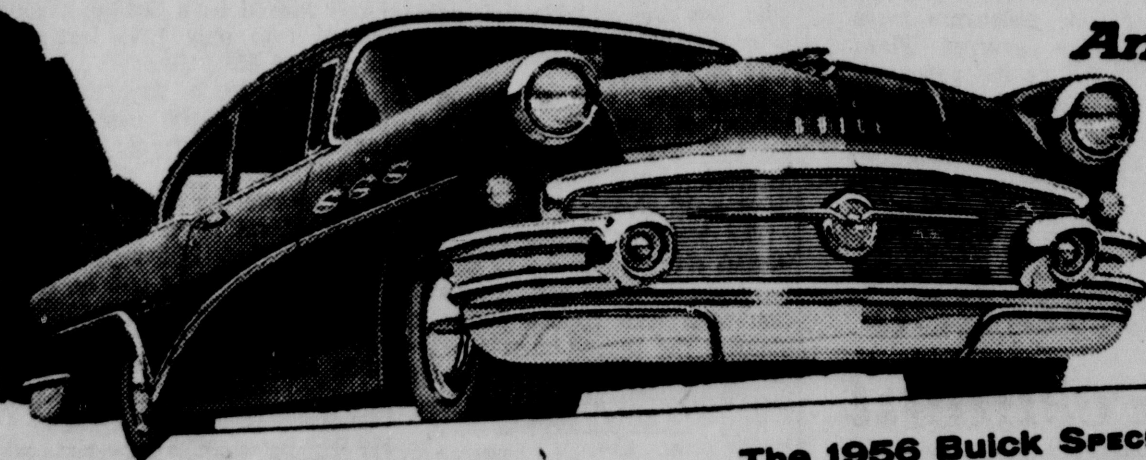

Above all, maybe you ought to come in and see for yourself the bedrock value packed into every new Buick — and how much more sheer automobile your money buys here than the same money buys elsewhere.

Drop in first chance you get. We'll show you what solid worth Buick builds into cars to win such soaring success — and how favorable a trade-in allowance we can offer you with such tremendous volume to back us up.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special.

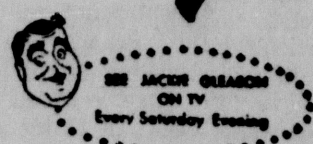

And now comes the '56 -

Best Buick yet

Buick builds cars in every price range, including the very lowest. And typical of Buick value in every price class is this buy:

Earthquakes Assist Check Of Sea Floor

By RENNIE TAYLOR
AP Science Reporter

LOS ANGELES (AP)—An ingenious method of using earthquake waves to explore the ocean bottom was reported today to the American Physical Society.

The procedure already has discredited a long-standing theory that the moon was formed when a great chunk of the earth was hurled into space, leaving a vast hole now filled by the Pacific Ocean, said Dr. Frank Press, one of the two scientists who developed the method.

It also has produced some other surprises, he added. One of these is that there are no "lost continents." This refers mainly to a legend that there once was a continent called Atlantis and that it sank into what is now the Atlantic Ocean.

The quake wave explorations show, Dr. Press reported, that all submerged land has been under water for a long time, and that one part of it did not get there later than the rest of the ocean bottom.

The technique was developed by Dr. Press, a physicist of the California Institute of Technology, and Dr. Maurice Ewing, oceanographer of Columbia University.

For ocean explorers, earthquake waves are a "cheap substitute for man-made explosions which heretofore have been used to study sea bottom. These explosions usually are set off from a ship. The vibrations they produce travel through both water and land, and are recorded and studied at various distant points. The amount of delay they encounter in reaching a given observation station and the extent to which they are distorted in penetrating submerged mountains or submarine canyons tells the observer what they have been through.

The results which upset the moon theory showed that the layers of basalt and granite under all oceans are of uniform thickness.

The moon theory was based on the fact that the top layer of the earth's crust is composed mainly of basalt which is underlain by a thick stratum of granite. When the big chunk flew off the earth it supposedly took with it most of the basalt, leaving only a thin slice of that substance on top of the granite in the area now covered by Pacific waters.

Dust Storms Are Threatening The Great Plains

WASHINGTON (AP)—The threat of new dust storms hangs over wide areas of the Great Plains, the Agriculture Department reported today.

Reports from the field as of Dec. 1 indicated, the department said, that dry soils and below normal rain and snowfall have left about 20 million acres of land in 10 Great Plains states in a condition to suffer from wind damage.

This acreage, however, is about six million less than that in a similar condition a year ago. Severe dust storms during the past winter and spring caused heavy crop losses and soil erosions, just as they have done periodically for many years.

Of the land subject to blowing, about 13,886,000 acres is in crop-land. The balance is largely range grazing land.

"The total amount of land that will actually be damaged during the current blow season will depend," the department said, "on such factors as the intensity of livestock grazing, the type, velocity and duration of windstorms, the amount and frequency of precipitation, and the timeliness of emergency tillage in blow areas."

The department said about 75 per cent of land in a condition to be damaged by storms is in Kansas, Texas and Colorado. The other states include New Mexico, Oklahoma, Montana, Nebraska, North Dakota, South Dakota and Wyoming.

OBITUARIES

Sherry Lea Gamber

Sherry Lea Gamber, infant daughter of Mr. and Mrs. H. W. Gamber, of El Monte, Calif., died Monday.

Sherry was born Nov. 17 this year, at El Monte. She is survived by her parents; a sister, Shiella Roxanne Gamber, of the home; her maternal grandparents; and her paternal grandparents, Mr. and Mrs. Charles A. Gamber, 1900 South Kentucky. Her father, Harold Gamber, is formerly of Sedalia. Burial was in El Monte, Calif.

Mrs. Martha E. Gentry Edwards
Mrs. Martha Elizabeth Gentry Edwards, 86, died unexpectedly at 8 p. m. Wednesday, Dec. 28, at the home of her granddaughter, Mrs. James Hawkins in Independence, Mo.

Mrs. Edwards was the daughter of Margaret Elizabeth and John Gentry. She spent most of her life in Smithton and for a number of years had resided at the home of her daughter, Mrs. Harold Scott.

Surviving are: three daughters, Mrs. Lena Simmons, Route 2, Sedalia, Mrs. Edith Todd, 411 North Heard, Sedalia, and Mrs. Lulu Scott, Smithton; two sons, William F. Edwards, St. Louis, and Fred H. Edwards, Excelsior Springs; 19 grandchildren; 21 great-grandchildren; and two half-brothers, Will Woolery, Florence, and Perry Woolery, Albuquerque, N.M.

Funeral services will be held at 2 p. m. Saturday at the Neumeier Funeral Home, Smithton, with the Rev. J. L. Freeman, Versailles, to officiate.

Pallbearers will be grandsons.

Progress May Be Made On Peace Proposals

JERUSALEM (AP)—Blaming both Israel and Egypt for the delay, the U. N. Palestine truce group has indicated that progress may be made soon on Secretary General Dag Hammarskjöld's frontier peace proposals.

In a communique, the truce group said further discussions will be held soon on Hammarskjöld's plan.

The communique replied to an Israeli statement charging that Egypt had reacted negatively to the proposals. The U. N. group said:

"The government of Egypt has not yet formulated its final position on the secretary general's proposals and considers the negotiations still to be open."

The communique said "preliminary introduction of questions beyond the scope" of the Hammarskjöld proposals by both Egypt and Israel had "complicated negotiations and greatly delayed them."

Hammarskjöld's proposals, put forward Nov. 3, are reported unofficially to call for:

1. Completion of the marking of the border of the El Ajza-Nizana zone.
2. Evacuation from the border area of Egyptian troops in excess of specific provisions of the armistice agreement.
3. Replacement of Israeli military forces in the zone by policemen for the protection of Israeli settlers.

Urged to Use Drastic Measures in Cutting The Traffic Toll

CHICAGO (AP)—The nation's governors have been urged to take drastic, emergency measures to cut the traffic toll over the new year's weekend.

The action was asked yesterday by the National Safety Council in view of the record 609 traffic deaths over the Christmas week-end.

The governors were asked to "use every resource at your command to step up traffic enforcement in your state over the holiday."

The council predicted 420 persons will be killed in traffic mishaps Friday night, Saturday, Sunday and Monday. That would be a record toll for a New Year holiday period.

Wants to Find Her 'Baby,' Lost in 1917

CORPUS CHRISTI, Tex. (AP)—Detective C. W. Tackett said a woman phoned and wanted her baby located. Asked the baby's age, she said:

"He was 2½ years old when I last saw him—in 1917."

Seems the 73-year-old mother had heard her son recently had married somewhere in New Mexico. Tackett promised to write New Mexico authorities.

Only Thing Left Was The Steering Wheel

MARLIN, Tex. (AP)—When his door flew open and a 28-year-old motorist started falling out of his car, he did what you would do—grab something and hold tight.

He grabbed the steering wheel and, as he fought to keep himself from falling, the car veered into a grocery store.

W. A. Soder estimated the damage to his grocery store at \$1,800 to \$2,000.

Betty Roadman

Actress Will Talk at Knife, Fork Meeting

In spite of the thrills of Hollywood, Betty Roadman, a character actress who has had dozens of roles in hit-movies and who has been a resident of the movie capital for more than 25 years, still prefers to talk about "her boys" in the Pacific Islands and what she saw out there of American democracy.

It is "Democracy in Action," as she prefers to title her talk, that she will give to members of the Knife and Fork Club which meets at 7 p. m. Monday at the Bothwell Hotel.

Mrs. Roadman who is a graduate of William Woods College of Fulton, Mo., and of the Columbia College of the Drama, Chicago, has had parts in such popular movies as "Hitler's Children," "The Burning Cross," "The Man Who Came to Dinner," and others. In spite of her success she prefers to live a quiet life in Hollywood, taking time out for an occasional trip to our Islands in the Pacific.

It was on one of these tours—she stayed for seven months—that the boy nicknamed her "Mom," an endearing term symbolic of her charm and inspirational visits with the soldiers stationed "out there."

"Mom" Roadman is more than a character actress, spending some time lecturing. She toured the entire state of Washington recently for the Teachers Institute, talking on "Democracy in Action," a vivid account of her personal experiences in the Pacific with "her boys."

State Could Not Just Sidestep Desegregation By Changing Schools

WASHINGTON (AP)—A high Justice Department official says he doubts a state could sidestep the Supreme Court's school desegregation decree merely by changing the designation of its schools from "public" to "private."

The official said yesterday he believes a court test would upset any such plans if public funds were used to support the "private" schools.

He made this comment when asked about a proposal by Virginia's Commission on Public Education to permit state subsidy, through tuition payments, of private schools.

The official said racial integration is proceeding satisfactorily in the schools and added that, while this situation continues, he doubted the government would initiate any cases aimed at speeding the process.

Any cases originating in the next several months, he said, likely would come from parents who felt their child had been deprived of its civil rights. He said such a case probably would have to go back to the Supreme Court for a ruling on what constitutes a reasonable time within which to achieve integration.

Inquest In Couple's Death Is Postponed

CARLYLE, Ill. (AP)—An inquest into the deaths of Mr. and Mrs. Harold Smith, whose bodies were found in separate wells near their Carlyle home Dec. 9, has been reset for Jan. 4.

Coroner Louis B. Heyer said the illness of Sheriff Dan Parker forced the postponement. The inquest had been scheduled for yesterday.

Fillmore Young, 34-year-old Carlyle Negro poultry worker, has admitted shooting the Smiths and then dumping their bodies in the abandoned wells. He is held without bond on two murder charges at the St. Clair County jail in Belleville.

Drivers Have Three Choices on Saturday

SPOKANE, Wash. (AP)—Drivers will get either a smile, a ticket or a cup of black coffee when stopped at police roadblocks here New Year's Eve.

"The coffee deal is for the fellow who has had a drink or two but is doing okay in his driving," said Police Capt. O. K. Sherar. The officers will have thermos jugs and cups for the borderline cases, along with tickets for drunk drivers and smiles for safe driver.

Although it was 10 a. m. there, he said it was just beginning to get light. DeWitt is playing on a basketball team which is in second place in the conference, having won seven out of nine games. He has been in Alaska since March, 1955.

Appears Happy About The Whole Thing

ATLANTA (AP)—A happy gunman held up six persons in a northwest Atlanta grocery store last night and escaped with \$703.

Police said the short, stocky man lined up employees and customers at gunpoint and calmly took the money from two cash registers.

Then, witnesses said, he stroled to the door, tipped his hat to the victims and with a broad smile waved goodbye.

Police said he answered the description of a man wanted for three other robberies in the area in recent weeks.

Loyalty Case Is Granted VA Hearing

WASHINGTON (AP)—A hearing open to newsmen has been granted to James Kutcher in his battle to retain a \$329 monthly veterans compensation payment once suspended on loyalty grounds.

The Veterans Administration announced yesterday that Kutcher's "wishes will be honored" to the extent of permitting newsmen to cover tomorrow's hearing before the VA's Central Committee on Waivers and Forfeitures.

It said no decision had been reached on a second request from Kutcher's attorneys—that his accusers be called to testify publicly against him. A spokesman said, however, that on the basis of precedent such action was unlikely.

Kutcher is a 44-year-old Newark, N. J., man who lost both legs under German mortar fire in World War II. His disability payment for that injury was suspended by a VA regional office as of Nov. 30 pending a loyalty hearing, but was reinstated temporarily by VA headquarters here.

The exact nature of the charges against him has not been announced by the VA, but the Friday hearing was called to determine whether Kutcher has forfeited his eligibility for disability payments under a wartime law. The law bars from benefits anyone "guilty of mutiny, treason, sabotage or rendering assistance to an enemy of the United States or of its allies."

Kutcher has pending a separate action seeking reinstatement as a file clerk in the VA's Newark office, from which he was discharged in 1948 on grounds he belonged to the Socialist Workers party. That organization is on the attorney general's subversive list.

Kutcher has said he is opposed to Soviet Russia.

Lions Act on Routine Business at Regular Meeting Wednesday

The Sedalia Lions Club met Wednesday noon at the Bothwell Hotel and transacted routine business of the organization.

A report on the Crippled Children's Center at Bothwell Hospital was given by A. B. Warren, vice-president. Warren also explained some of the future plans for the center.

A discussion was held with reference to the possible moving of the Lions Club meetings from the Bothwell. A committee is conducting an investigation with reference to the matter.

Guests attending were Lyle Trueblood, DBA, Tulsa University, Tulsa, Okla., of Dr. D. H. Robinson, and Verrel M. Martin of C. A. Huntington.

Telephone Operators Sing Christmas Carols At Homes of Shutins

Every year a group of telephone operators in the traffic division of the Sedalia office of the Southwestern Bell Telephone Co. join in singing Christmas carols at the home of shut-ins, and this year was no exception.

Members of the choral group were Shirley McKelvey, Shirley Bryan, Ruth Ann Wareham, Jody Gentry, Hazel Miller, Georgetta Nevils, Vesta Elliott, Mary Lou Ash Kathie Lambirth, Francis Daugherty and Peggy Davis.

Maid of Cotton For 1956 Has Been Named

MEMPHIS, Tenn. (AP)—A green-eyed private secretary from Raleigh, N.C., was named the 1956 Maid of Cotton last night.

Patricia Anne Cowden, Miss Raleigh of 1955, is 21, 5-7, weighs 125 and has brown hair.

She was chosen over 22 other beauties from 13 cotton producing states.

Miss Cowden was selected after two days of public appearances, individual interviews and last night's contest.

After a news conference today, Miss Cowden will leave for New York where she will be outfitted with an all-cotton wardrobe, then leave on an international tour promoting the cotton industry.

Burglary Ring Took Orders For Loot

DALLAS, Tex. (AP)—Officers who arrested eight men and charged them with burglary explained yesterday why the ring was able to dispose of its loot so quickly: the men would "take orders," then would go out and steal merchandise to fill them.

Large Crowd Expected

PASADENA, Calif. (AP)—A half million automobiles carrying 1½ million persons are expected here Jan. 2 to view the Tournament of Roses parade, says the Auto Club of Southern California.

The Farm Family Plans Ahead for 1956

Now is the time to review farm and home operations and determine how successful you were in solving your financial problems. How can these solutions be put into effect in 1956? These will be used in setting up goals for the year ahead.

Families with farm and home plans will be taking inventory of their assets and adjusting plans so that steps might be taken toward carrying out their goals for 1956. The family approach to problems is receiving increased emphasis. It involves more than working together on specific interests. In its broadest sense, the family approach is analyzing the whole situation, making a plan, and then carrying it out so that the plan will meet most effectively the needs of the family.

While no two families will spend the same amount or in the same way, a picture of how some families have managed their income is always interesting. For example, records show that about one-third of the gross cash income from the farm is spent for family living items. This includes food, clothing, household operation, equipment and furniture, health, education, church and charity, recreation, transportation and personal.

In general, families need to consider all of their resources, then make an overall plan for 1956 based on the analysis of the present situation.

Some adjustments which may be considered by families in addition to increasing home food production and better care of equipment is the use of family labor and skills in the upkeep and improvement of the home and better planning for the purchase of clothing. Also, there's the need during the coming year for keeping accurate records of household expenditures so that these records may be checked from time to time and adjustments made in purchases and in production. Another thing which has come into the picture to a large degree is the responsibility of supplementing family income through the homemaker's employment outside the home. This necessitates family income through the homemaker's employment outside the home. This necessitates special planning

Citrus Fruits for Vitamin C

Citrus fruits are bought more frequently and eaten in greater volume than other fruits. Oranges, grapefruit and tangerines are now being marketed in large quantities. So enjoy these delicious and healthful fruits now while supplies are large and prices lower than for some time. Whether you buy frozen juices or the fresh fruit, oranges and grapefruit are excellent sources of vitamin C which promotes healthy tissues and normal growth and vigor. Also it helps build and maintain strong bones and teeth and gums. Vitamin C cannot be stored in the body. That's why we need citrus fruits and other C-rich foods every day.

Remove Coffee and Tea Stain

Water and glycerine. If the stains are on wool or silk, sponge with lukewarm water. Then apply glycerine and rub lightly between the hands. Let stand for half an hour and rinse thoroughly with water. If a grease spot from cream remains, sponge with carbon tetrachloride. Boiling water. Remove fresh

stains from washable materials by pouring boiling water on the stain from a height of two or three feet, then wash in warm soapy water. If a trace of stain remains, dry in the sun or bleach with hydrogen peroxide and sodium perborate. A copy of the USDA Bulletin No. 1474 — Stain Removal From Fabrics—may be obtained from the county extension office.

Pies frozen before baking will taste fresher and have a more tender crust, when served, than will those pies frozen after baking.

To give a new flavor to dried prunes, add a few whole cloves while they're cooking or cook them in grape juice.

Field Day For Thieves Is Here

The universal greeting this week differs from the wooden comment about the weather. The change is refreshing: "Merry Christmas," although it is past; "Happy New Year," although it's not here; or "Did you have a good Christmas?"

Conversational comparisons indicate Christmas was a success—from the gift standpoint. People went on a buying spree which means there are hundreds of thousands of dollars worth of presents still on display under Christmas trees in many Sedalia homes.

This is the season, too, when many families and friends are exchanging visits, leaving their own premises with lights out and doors or windows unlocked.

A little more caution is necessary these days because valuable merchandise in the form of Christmas gifts is a temptation to burglars who are known to work hard sometimes in breaking and entering. So it is plain stupidity to leave the front door unlocked for them to walk right in without any effort.

Stealing is going on in Sedalia as elsewhere. Particularly at this time of year citizens are urged to be alert. Thieves do not necessarily wait until premises are vacated. Bolder ones use all sorts of devices to gain entry such as hoodwinking juveniles when mother is out in the backyard hanging up the wash or visiting a neighbor, using the pretext

of a repair or service call ordered by the husband; or pretending a personal emergency in order to use your telephone. Reports from other areas indicate a crew of young magazine salesmen got their foot in the door and past it, stealing valuables while the housewife's attention was distracted by one or the other.

Carelessness at the front door may invite theft or worse. Over emphasis of hospitality to strangers without credentials or close inspection is not required. When such hospitality is offered and theft is discovered later, police can't do much about it. The culprits are long gone. In one community it was learned the thieves left in a high-priced car. They move fast after one or two good jobs in a town.

Opportunity for good-sized hauls is more pronounced after Christmas when valuable gifts are in abundance usually on the first floor and within a few steps of the front door.

So don't compound temptation by leaving the front door open or inviting strangers to come in out of the cold to whack you over the head.

And if your suspicions are aroused over some fast-talking individual whom you turn away, tip off the police he or she is operating in your neighborhood. Yes, it could be a she who could turn your Merry Christmas into a sad one, and your Happy New Year into an unprosperous one.

Drew Pearson Says—

Pressing Brownell to Prosecute Ike-men

By DREW PEARSON

WASHINGTON — Senator Kefauver has not said much about it publicly, but he has discussed with Senate friends the idea of asking the Senate to appoint special counsel to prosecute those guilty of planting Adolphe Wenzel of the big First Boston Finance Company inside the budget bureau for the purpose of hatching the Dixon-Yates deal.

Appointment of special Senate counsel would be an unusual procedure. It would mean going over the head of Attorney General Brownell who is supposed to prosecute for the government, and saying in effect that the Senate had no confidence in Brownell.

However, Senator Kefauver figures Brownell will never move against officials of his own administration, including Eisenhower's budget director, Rowland Hughes, and Admiral Strauss, chairman of the Atomic Energy Commission. And there seems to be some reason to back Kefauver up.

First, Brownell is too busy trying to prosecute members of the Truman Administration for matters which Brownell knew about three years ago and which need not have waited for action till an election year.

Second, Kefauver points out that Brownell, while sending a staff of 13 prosecutors to St. Louis to "get Truman," has completely neglected the conflicts of interest of ex-Secretary of the Air Force Harold Talbott and Peter Strobel, former public buildings administrator.

If these men were guilty of a conflict of interest — and they certainly resigned in a hurry — then, under Title 18, Section 434 U. S. Code, they were punishable by a fine of \$2,000 or two years in jail, or both.

Precedents for Prosecutors

Kefauver has been looking up certain precedents for the appointment of special counsel to go over the head of the Justice Department. One is the appointment of Louis D. Brandeis as special people's counsel in probing wages and hours and the Ballinger-Pinchot case. Brandeis did such a notable job for the public that he was later appointed to the Supreme Court.

Another possible precedent was the appointment of Owen J. Roberts and ex-Sen. Atlee Pomerene of Ohio to prosecute Albert Fall, Harding's secretary of the interior, and Ator-

ney General Harry Daugherty in the Teapot Dome scandal. The country had lost confidence in the Justice Department, so Calvin Coolidge appointed these two to go over the head of the Justice Department as special prosecutors. Like Brandeis, Roberts did such a good job that he too was appointed to the Supreme Court.

In the recent Dixon-Yates case, Kefauver plans to point to various Brownell failures, the latest being his dismissal of charges against the Greek shipping magnate A. S. Onassis, who happened to have been a client of Brownell's when the attorney general was practicing law in New York.

The case against Onassis involved buying American ships, then transferring them to foreign flags. The case was largely developed by the Justice Department under Truman, though the final indictment was brought under Brownell. Brownell's subordinates did not know at the time, however, that their chief, the attorney general, and his law firm, Lord, Day and Lord, had represented both Onassis personally and his company, U. S. Petroleum Carriers. Suddenly they found that they had indicted the client who had been advised by Brownell and his law firm that it was quite legal for him to transfer American ships to foreign flags.

Naturally, all this would have been highly embarrassing if the Onassis case had ever come to trial. It would have shown that Brownell as attorney general was prosecuting a man for doing something which Brownell as a private lawyer had advised him to do.

So just before Christmas the criminal case against Onassis was quietly dropped.

These are some of the reasons Senator Kefauver wants to appoint special Senate prosecutors to examine the whole Dixon-Yates deal and other conflicts of interest such as Harold Talbott and Peter Strobel.

Honor to Helen Hays

After 50 years on the stage, the diminutive Helen Hays will have her own theatre. The Fulton Theatre in New York will become the Helen Hays Theatre. The only other living actress who has that distinction is Ethel Barrymore.

Helen Hays started her career at the age of nearly five when she played Prince Charles in "The Royal Family." Some of her important stellar roles have been in Barrie's "Dear Brutus" and his "What Every Woman Knows," Shakespeare's "Twelfth Night," and Shaw's "Caesar and Cleopatra." Two of her greatest performances were in "Mary of Scotland" and "Victoria Regina." She was excellent as Harriet Beecher Stowe in "Harriet."

Helen Hays is not only one of the nation's best and most beloved actresses; she is also a highly respected and beloved woman. In her home in Nyack-on-the-Hudson, she is a friend and neighbor to the townspeople and enters into community life as much as her career will let her. She still lives with her one and only husband, Charles MacArthur; and they still love each other and their adopted son.

Helen Hays played her most heroic part when her daughter, Mary, died suddenly of polio a few years ago on the very brink of her appearance on the stage with her mother. Helen Hays, the mother, was temporarily stunned. But she put on her best act and, with her devout faith, her great talents, her love for others, she returned to the stage, locking her great sorrow deeply in her own heart.

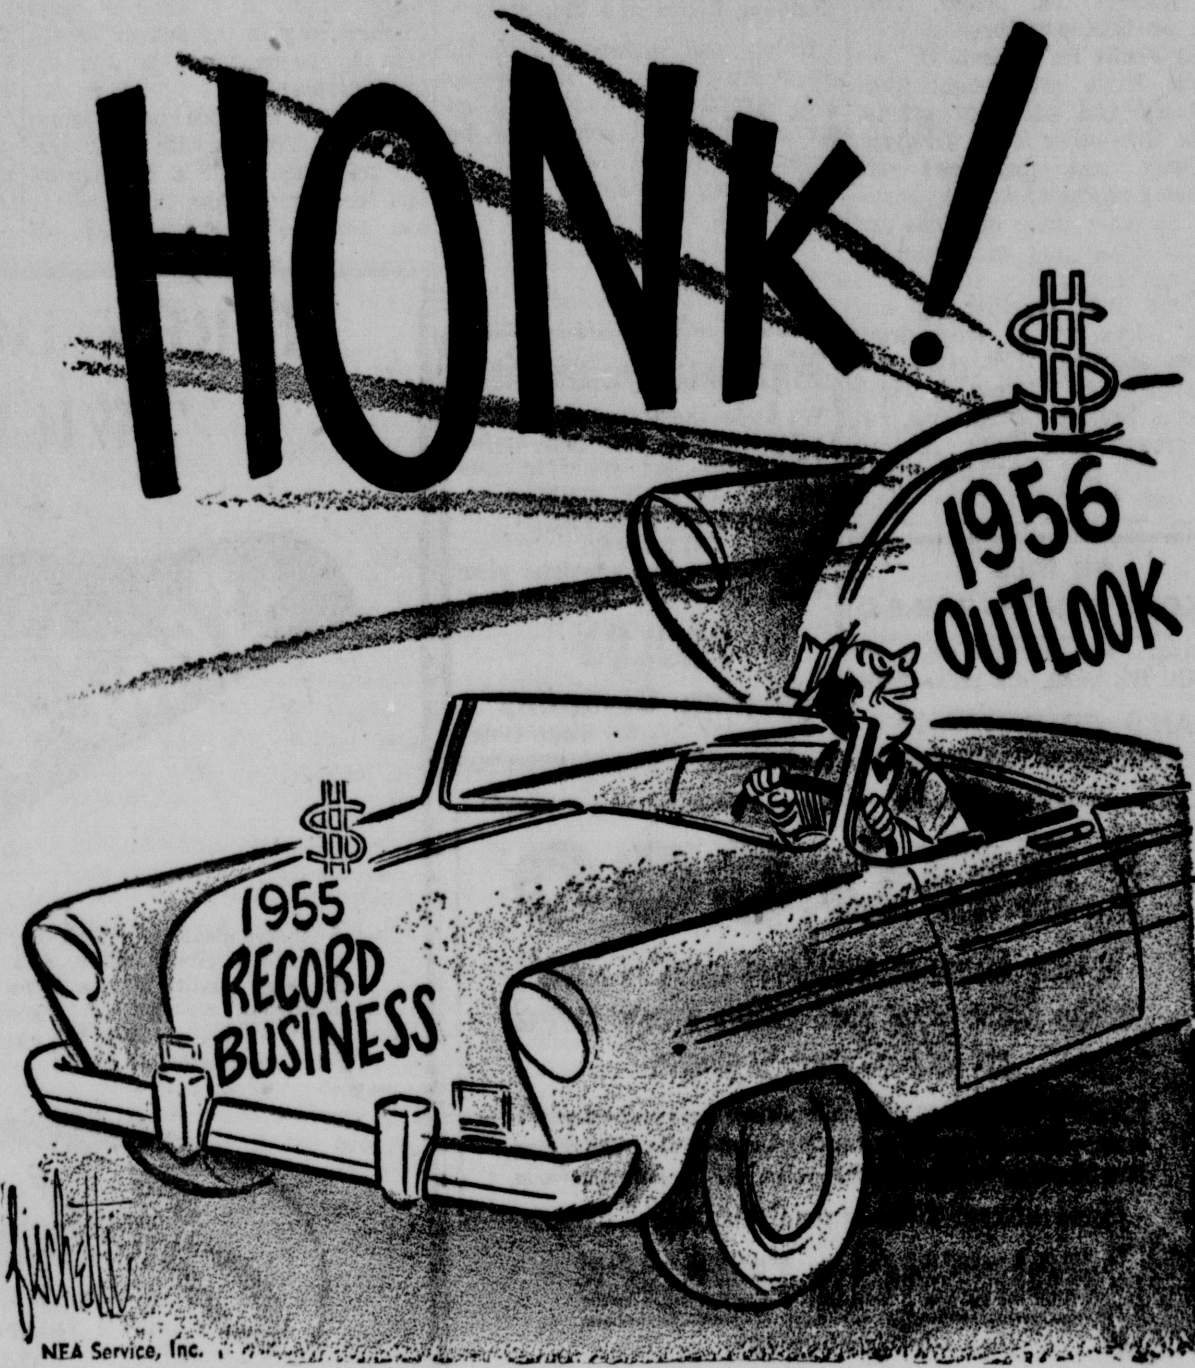

This truly great actress deserves all the honor she gets. It is a genuine tribute to have the Helen Hays Theatre named while she still lives to enjoy it.

The World Today—

Can the West Stop Communist Advance?

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—In the decade just ending — 1945-1955—communism, on the march, has made tremendous advances. The West, trying to stop it, has lost ground.

Question for the 10 years beginning Sunday: Will the West, particularly the United States, find a way to roll the Reds back or even keep them from advancing another inch? No one can claim his guess is good on this.

Since the beginning of 1945 between 700 and 800 million people have been brought firmly under communism by force: the European satellites, Yugoslavia, China, North Korea, North Viet Nam in Indochina, Outer Mongolia.

The Reds won nowhere in free elections. They latched onto some places — the satellites — during the war. Others they took afterwards by civil war: China and North Viet Nam. Red governments have been established in all of them since the war.

Nowhere has the West shaken the Reds' grip once they took hold. In a few places it stopped them when they reached out to grab. Nevertheless, Red tactics forced a monumental change in American thinking.

The United States abandoned its historic isolation and got up to its neck in world affairs and foreign alliances.

It made alliances in Europe, Asia, Latin America, the Pacific. Since 1945 it has handed out over \$1 billion dollars in aid to friendly countries.

There is no doubt the military alliances and the economic help

stopped the Reds from even greater success.

No one can rightfully doubt the Reds will use force again when they think they can get away with it. But in this decade West and East have developed such fantastic weapons they could destroy each other in all-out war.

For that reason the Reds may try a softer, but more tedious ap-

proach. For instance, by smiles and persuasion and promise of economic help, which they're using now in the vulnerable areas of Southern Asia and the Middle East.

One thing is certain; the Communists will keep on pushing in one way or another. What isn't certain is whether the West can stop them.

Your Child's Health—

Glandular Fever Is More Common But Remains Mild

By EDWIN P. JORDAN, M.D.

One curious disease, which I have discussed several times in the past but about which I continue to receive many inquiries, is infectious mononucleosis or glandular fever. This is a disorder more common in children and young adults than it is in the older years of life.

The cause of infectious mononucleosis is still uncertain though it is probably a virus. If this is the case it is curious that most experiments aimed at transmitting the disease from one person to another or to monkeys have failed. This, I think, answers the question from a reader who recently inquired whether infectious mononucleosis was contagious; it is not contagious, or at least if it is the dangers of catching it by direct contact seem to be remarkably slight.

Glandular fever seems to be somewhat more common today than in the past. It is possible that more people used to have it than we know about because it is often mild and perhaps it simply was not identified so frequently years ago as it is now.

The symptoms of infectious mononucleosis are variable and often unimportant. Vague pains and slight loss of appetite are common and moderate fever is usually present. Some youngsters complain of lack of pep or headaches.

In more severe cases nausea

and vomiting are common. The lymph glands in the neck, groin, and under the arms are often enlarged and it is for this reason that the disease is sometimes called glandular fever.

All of these signs, of course, can be found in other disorders so that the diagnosis depends on the results of special tests. One of these is the identification of an increase in certain cells in the blood known as the mononuclear cells. In addition, there are laboratory studies of the blood which greatly aid in reaching a diagnosis.

Most of these who get this disease recover without much difficulty. Generally the disorder lasts for several weeks but leaves the victim run down and weak for a considerably longer time.

What medical men always fear, however, is that a disease of this kind may get more severe as time goes on. In fact, there have been reports of a few victims of infectious mononucleosis who developed serious complications. This, fortunately, is unusual.

As yet there is no definite treatment. Rest and the usual methods used for mild infections is generally all that is necessary.

Most asteroids have a period of revolution between three and one-half to six years.

Washington's official state flower is the rhododendron.

Profits From Danish Beer Used to Promote Culture

By Walt Dear
Our Correspondent Abroad

COPENHAGEN, Denmark — Drinking beer in Denmark is more than a national pastime. It's a patriotic duty as well.

One of the nation's famous breweries, Carlsberg, turns over all of its profits to science and art. This now adds to over \$2½ million a year. With this money, Danes have explored Greenland, searched for a cure of cancer, resurrected a national museum, and given a home to its world-famous atomic physicist, Niels Bohr.

The profit turnover is not a matter of the nationalization of the industry, however. The idea came from the mind of Captain J. C. Jacobsen, who, among other things, used his mother's wash tubs to experiment with different brews in 1838. Jacobsen also was the first Dane to use a thermometer instead of his hands to check the temperature of beer.

After a few trips to Munich in the 1890's, he developed his own variety of lager beer and eventually set up a laboratory for improving the quality. He hired physiologists and chemists and ordered that "no result of the activities, whether of a theoretical or a practical nature, shall be kept secret." Some of the research has paid off for the nation as well as the company. A barley called "Carlsberg Barley," intended for the beer, was found to be of greater agricultural value than that being raised and is now farmed in quantity.

Before he died, Jacobsen organized the Carlsberg Foundation, for the development of science. He donated his home for the use of outstanding Danish scholars. The foundation is managed by five Danes, elected by the Royal Danish Academy of Science and Letters.

Jacobsen's son, Carl, thought the old man was wrong when he declared that fine quality beer could not be mass-produced. He broke away from his father forming a separate firm and sold "Ny (new)

Carlsberg," in contrast to "Gamle (old) Carlsberg." But the competition ended within the factory, for both joined in various philanthropic efforts. Between the two, they built a church, donated funds for sculpture and art in Copenhagen, saved Denmark's Fredericksburg Museum from extinction, and established an institute for biology. Both men wanted that foundation be organized to carry on the cultural work, with funds derived from their breweries.

In 1902 when the two breweries were merged, the two foundations were also joined and since then, have helped develop Danish culture.

Visitors to Carlsberg sometimes ask, "But if you turn your profits over to culture, don't you lose the incentive to sell more beer?" Company officials claim no. They feel the search for a good brew is on as strong as ever. If anything, the switch from profits to the Jacobsens to profits for culture has added some incentive to the art of brewing and selling. Carlsberg goes all over the world, including America.

Carlsberg thinks its employees are happy under their system, too. Most of them stay on with the company after starting work. For those who have been employed for 50 years, the company honors them with a banquet and a portrait which is retained in the company museum.

Denmark offers many attractions for the tourists, but somehow, Carlsberg captures a lion's share of them. One of the treats, at the end of each tour, is the chance to test any or all of the 13 varieties of beer the company produces. Such figures as the Duke of Windsor, the old King of Siam, Hollywood stars, and even American naval officers, have succumbed to the invitation to "inspect" Carlsberg.

After a few sips, the visitor is inclined to ask, "Just how much do the employees drink?" "Their drinking habits within the plant are a well-guarded secret," replies the guide.

Ruth Millett Says—

Some Family Battling Is Necessary for Growth

Any married couple which has quit fighting has quit growing. It's as easy as pie for a husband and wife to keep life smooth on the surface if neither one fights for his own ideas, if neither tries to change the other, if neither sees how things could be better and tries to put some changes into effect.

A husband and wife can achieve unflinching agreement on the surface, that is—if they both wear polite masks and keep their real hurts, disappointments and angers carefully hidden. But when they start doing these things they begin to stand still. They quit learning, growing, achieving and striving for a better marriage.

They take the easy way by pretending to agree in order to avoid an argument, by thinking "She won't understand" or "There's no use bringing up that subject again" instead of deciding to straighten things out. Constant wrangling and bickering aren't good for any marriage. But neither is constant surface agreement.

Unless two persons grow individually a marriage doesn't grow. And whenever two persons are growing they are bound to have disagreements. Instead of priding themselves on the fact that they never disagree a couple should pride themselves on the fact that they can have a battle now and then that brings things out into the open. It lets each really know how the other

feels about important matters and helps them arrive at an answer to a problem instead of running away.

Tigers Block Finals Road For Kansans

KANSAS CITY (AP)—Coach Phog Allen's Kansas Jayhawks who have never lost to a Missouri team in the Big Seven Conference annual holiday basketball tournament can advance to the finals tonight by dumping the favored Tigers.

Both teams have identical 5-2 season records and moved into the semi-finals with first round victories last night.

Missouri defeated Nebraska 71-66 and Kansas dropped Cornell, the guest team, 75-58.

Colorado (4-3) meets Iowa State (6-1) at 7:30 p. m. (CST) in the first semifinal game.

Two losers bracket games are scheduled for this afternoon.

Oklahoma (2-6) plays Kansas State (3-4) at 2 p. m. and Nebraska (2-6) meets Cornell (3-3) at 4 p. m.

All teams playing last night were cold shooting from the outside.

Kansas hit for 33 per cent of its field goal tries, Cornell 21.2, Missouri 31.3 and Nebraska 31.

Nebraska's Rex Ekwall turned in the best individual scoring performance getting 25 points. Lionel Smith got 22 and Norm Stewart 16 for Missouri. Milton Cogan of Cornell and Gene Elstun of Kansas each hit for 17 and Bill Brainerd, also of Kansas, got 16.

Missouri and Nebraska exchanged the lead several times throughout the first half before the Tigers grabbed a 36-31 advantage.

Cornell made a game of it in the first ten minutes but trailed 36-25 at the half.

The championship game will be tomorrow night.

Zaharias Back In Hospital With Pneumonia

GALVESTON, Tex. (AP)—Babe Zaharias today was back in John Sealy Hospital—this time with pneumonia.

The famous woman golfer was stricken while on a Christmas holiday with friends at Fort Worth and was flown here yesterday afternoon. Attendants at John Sealy said here early today that her condition was satisfactory and that she was resting comfortably.

The Babe told reporters in Fort Worth yesterday that she must have become chilled while posing out of doors for television camera-men.

"I took a hot bath Monday, then went out in the yard in my pajamas and robe to pose for some television photographers," she told them. "Then I went out to the golf course awhile. I thought it was warm enough but I guess it wasn't."

She said she awoke yesterday morning with a bad pain in her chest and difficulty in breathing. A physician diagnosed her illness as pneumonia.

Mrs. Zaharias went to Fort Worth Saturday for a short vacation from the Galveston hospital where she has been undergoing X-ray treatments for pains in her right hip and leg. Previously she had undergone two operations for cancer.

Cornell made a game of it in the first ten minutes but trailed 36-25 at the half.

The championship game will be tomorrow night.

Robinson and Basilio Match Can Be Seen

NEW YORK (AP)—Way off in the distant future, say September at Yankee Stadium, a Sugar Ray Robinson-Carmen Basilio match is hanging in the sky.

Many pieces of a complicated puzzle must fall into place before it comes to pass but there's a reconstruction workers in counties tract worldwide attention. Basilio is welterweight champion.

"We're looking toward a Basilio match outdoors," said Ernie Bracca, Robinson's manager as he discussed the future of the three-time middleweight champ.

"We're anxious to get the rematch with Bobo Olson over as soon as possible," he said. "It's good news to hear they (Olson and manager Sid Flaherty) are going to take up the option. The date isn't definite but they tell us the tentative date is Feb. 24 at San Francisco."

"We've got lots of plans. Maybe Charles Humez in Paris in the spring. And there's an offer for 20 exhibitions in Europe. Most of all, we're looking to Basilio. That's the only big outdoor match around. Both sides are warm to the idea."

Horry Markson, managing director of the International Boxing Club, said any talk of such a match was "pretty far in the future." He said it had been discussed briefly, only because it had been mentioned but there was nothing concrete.

Sophomore Tucker Is Reason For Nightmares in Southwest

By ED CORRIGAN
The Associated Press

When a sophomore can sink 43 points in fast college competition, what is he going to do when he becomes a senior?

Southwest Conference coaches must have nightmares when they think of Rice's 6-10 Temple Tucker, a sophomore center. He scored 43 points to set a tournament record last night while his mates were running up a 110-81 victory over Texas A&M in a first-round game of the Southwest Conference event.

That was the highest score of the night in some 25 tournaments. In other Southwest tourney games, visiting California polished off Baylor 72-59; Texas turned back Texas Christian 66-60; and Southern Methodist whipped Arkansas 67-62.

Only one major tournament was decided. That was the Motor City in Detroit, in which Brigham Young, deprived of its three tallest players at the start of the second half through fouls, defeated Detroit 99-77 in the final.

The big shock of the night took place in Oklahoma City, where Oklahoma City University took the measure of the Oklahoma Aggies 48-47 to enter tonight's finals against Tulsa, which upset top-seeded Seattle 68-66.

In New York, the mighty San Francisco Dons ran their two-year winning streak to 35 games by outclassing Holy Cross 67-51 in the semifinals of the Holiday Festival at Madison Square Garden, UCLA, the last team to beat the Dons, halted defending champion Duquesne 72-57 in the other semifinal. The winners will meet Friday.

Bill Russell, the Dons' heralded center, scored 24 points in leading his team to its eighth victory of the year.

The Richmond Invitational also is turning into a red-hot battle, and tonight's semifinal between Cincinnati and Seton Hall shapes

up as a corker. Cincinnati crushed Virginia 93-69 and undefeated Seton Hall upended Virginia 64-60.

The other semifinal will pit William and Mary, which set a tournament record by vanquishing Rhode Island 100-96, against Richmond, 96-84 victor over Army.

The semifinals of the Big Seven Tournament in Kansas City also are slated for tonight, sending Colorado against Iowa State and Kansas against Missouri. Last night, the Jayhawks beat Cornell 75-58 and the Tigers conquering Nebraska 71-66.

In Louisville, the finals of the Kentucky Invitation are scheduled for tonight, pitting top-seeded Western Kentucky against Murray State. The Hilltoppers wiped out a 12-point deficit to humble Louisville 86-77, while Murray gained its berth in the finals with a 98-87 victory over Eastern Kentucky.

Clemson, 100-95 victor over Louisiana State, and South Carolina, which beat Georgia 85-68, meet for the Gator Bowl title at Jacksonville tonight.

In the Miami Orange Bowl Tournament, West Virginia beat Florida State 78-69 and Columbia beat Santa Clara 76-73.

Rose Bowl Queen Crowned Wednesday

PASADENA, Calif. (AP)—Blonde Joan Culver was officially crowned queen of the 1956 Tournament of Roses last night.

On Monday she'll ride in the 67th annual parade preceding the Rose Bowl game and then she'll reign at the grid festivities as UCLA meets Michigan State.

For her coronation, 18-year-old Queen Joan, a Pasadena City College coed, wore a formal gown of blue and pink nylon tulle, trimmed with imported chantilly lace and sequins.

PORTALES, N. M., (AP)—Semifinals in the eighth annual Sunshine Basketball Tourney today will pit Southwest Oklahoma and Southeast Missouri, and West Texas State and host Eastern New Mexico.

Only Eastern New Mexico had trouble in its first round activity yesterday. The Greyhounds had to overcome an eight point deficit in the last minute in edging out defending champion Fort Hays (Kan) State 63-60.

In the others, West Texas State stopped Arkansas State Teachers 98-66. Southwestern Oklahoma dropped Southern Illinois 65-55, and Southeast Missouri stormed past Western (Colo.) State 80-55.

Consolation games today will pit Southern Illinois and Colorado Western, and Arkansas State and Fort Hays.

Southeast Missouri, one of the tourney favorites, led all the way in its easy conquest of the Colorado team. Don Beterberg and Richard Eichrodt each had 18 points in the winning cause.

Marciano Named As Fighter of the Year

NEW YORK (AP)—Heavyweight champion Rocky Marciano has been named "Fighter of the Year" by Ring magazine and the Nov. 30 rematch of Carmen Basilio and Tony DeMarco for the welterweight title has been selected "Fight of the Year."

Digging deeper into the year's boxing schedule, the magazine also selected the third round of the Archie Moore-Bobo Olson bout

for the light heavy crown as the "Round of the Year."

Marciano was selected over Sugar Ray Robinson after long deliberation. The Rock knocked out England's Don Cockell and light heavy champ Moore in two defenses to remain undisputed ruler. Robinson's "comeback" included a defeat by Tiger Jones before he made history by knocking out Olson, Nov. 30, becoming the first man to hold the middleweight title three times.

Basilio, who won the welter title by knocking out DeMarco at Syracuse, N. Y., June 10 and stopped DeMarco again in the 12th round at Boston, Nov. 30, was third in line.

The bases in major league playing fields should be safer in 1956. A new type base is filled with sponge rubber and is plastic covered.

Cotton Bowl Teams Are Rated Even Enough

DALLAS (AP)—The Cotton Bowl teams — Texas Christian and Mississippi — are rated even enough that the question of which will win may simmer down to which is the hungrier.

On that point it would appear the schools are running virtually a dead heat — both are starved, for bowl victories that is.

Texas Christian has the longest famine. The last time it won a bowl game was 1939 when it beat Carnegie Tech 15-7 in the Sugar Bowl. Mississippi's last victory was over this same Texas Christian in the now defunct Delta Bowl in 1948.

But Mississippi never has won a major bowl game and it has appeared in three in the past 20 years. Coach Johnny Vaught of Mississippi has coached the team in its last two appearances—both in the Sugar Bowl.

TCU will enter the game a touchdown favorite but it isn't said very positively. The teams have similar records—9-1—and they both beat the only mutual opponent, Arkansas. Offensively they rate about the same, with Texas Christian dominating on the ground but Mississippi apparently quite superior in the air.

Both teams wind up home practice this afternoon. Mississippi will fly into Dallas tomorrow. Texas Christian will come by bus from Fort Worth.

Coaches Exhibit Many Different Ideas In Getting Teams Ready

MIAMI, Fla. (AP)—The Maryland and Oklahoma football teams may play a lot alike, but their coaches are exhibiting different ideas in getting them ready for their expected struggle Monday in the Orange Bowl.

Coach Jim Tatum is having his Maryland players bang each other with all the power in their rugged bodies. Coach Bud Wilkinson is ignoring any hard contact.

Tatum acknowledged beforehand he was gambling on some vital injuries. But he believes it is necessary to apply the teaching to make it stick.

He let his squad have it out at full hitting power for an hour yesterday.

There were scads of lumps raised and blood let in the bargain. In the heat of things, one team mated socked another.

Tatum planned another stiff workout for this afternoon.

Light contact work was the order of the day in the Oklahoma camp and Wilkinson was happy with the attitude of his Sooners.

"I like their effort," he said. "They are all trying and you can't ask more than that."

Most of Oklahoma's practice session yesterday was devoted to running and passing.

California School News— Music Department Presents Its Annual Christmas Party

The music department presented its annual Christmas program on Thursday night. Members of the seventh and eighth grade gave a pageant, "Angels of Christmas." A candle lighting ceremony preceded the pageant.

Following the pageant, the mixed chorus sang. A 100 voice chorus concluded the program by singing "The Story of Christmas" and the "Hallelujah Chorus."

Soloists were Kay Francis, Glenda Kunze, Jim Shores, Dorothy Linhardt and Jerry O'Banion.

A quartet consisting of Beverly Tising, Sharon Crawford, Allan Peck, Eugene Butts and a trio composed of Jim Shores, Paul Lebeck and J. David Gattermeir were also featured in the special chorus number.

Accompanists were Eleanor Hirt, Donna Barry and Kenyon Latham.

The Home Economic girls entertained their mothers and friends at their annual Christmas tea recently with 70 present. A short program was given. Carols were sung and the film, "The Littlest Angel," was shown.

Refreshments were served from a table covered with a red cloth with a centerpiece of green ornaments and angels.

At the regular meeting of the FFA boys chose men to be invited as honorary chapter farmers to the Parents and Son Banquet. These men were chosen because of the work for the chapter. The boys also selected fathers who are to look into the possibility of having an FFA hog sale during the first part of October. The sale will consist of all breeds of purebred hogs owned by the members. The fathers forming the committee are Frank Wagner, Charles Stock and John Langkop.

Larry Wagner, the president, appointed a committee of three to get ideas for a party. The boys appointed were: Jim Mutens, chairman, and Don Kuester and Freddy Snyder, members.

The Spanish I class and the Spanish II combined, sang "Jingle Bells" and "Silent Night" in the study hall on Dec. 23. Alice Pulliam accompanied them on the violin.

We Americans Used to Hold Christmas

By CHARLES MERCER
NEW YORK (AP)—We Americans used to observe Christmas. Now we celebrate it.
The nation secretly sighs with relief when Christmas is over. Nearly everybody ate too much and many drank too much. Nearly all received too much and most wonder if they gave enough. There was much conspicuous consumption and vying for prominence: children debated over who received the better gifts, and suburban housewives tried to string up more lights than their neighbors.
The lip service paid to peace on earth and good will toward men would have caused Isaiah to cover his face with his cloak and Jeremiah to raise both hands to heaven.
Television and radio shared in the general immorality. Each station, network and program seemed bent on outdoing all others in putting forth the same music and the same seasonal clichés.
By my count Charles Dickens' "A Christmas Carol" was seen or heard at least four times on national networks. It was too many. Dickens himself grew exasperating.

Ernie Ford's Birthplace And His '16 Tons' Makes Variety

By BOB THOMAS
HOLLYWOOD D.P.—If Ernie Ford had been born a few miles distant, the nation's No. 1 record might have been "Sixteen Tons" by Virginia Ernie.
That's the thought for today.
As a matter of fact, Ernie's hometown is on the Tennessee side of the border city of Bristol. It's a good thing too. He probably never would have gotten very far as Virginia Ernie.
But as Tennessee Ernie Ford, his career is booming. It looks as though his "Sixteen Tons" is going to be the biggest seller in recent history.
"I'm amazed by it all," said the modest singer over breakfast. "Nothing like this ever happened to me. I guess nothing like it ever happened to anyone."
The astounding sales: over two million records in eight weeks, and the amount is still climbing.
No wonder Ernie is amazed—he has only been a performer for six years. He came to California in 1946, landing in San Bernardino as a radio announcer. He moved on to Pasadena and that's where he adopted the Tennessee, using it as a disc jockey for country music.
In 1949, hillbilly emcee Cliffie Stone enlisted Tennessee Ernie on his Hometown Jubilee TV show. That's when Ernie's career started taking off. He rumbled around in the TV and record world, then came to national attention as Lucille Ball's country cousin on I Love Lucy.
For the past year he has been doing 10 shows a week, five on NBC-TV in the morning and five on CBS radio at night. He has been called a bucolic Arthur Godfrey, since he has much the same kind of voice and delivery.
How did he find "Sixteen Tons"? He explained that he was able to do a variety of songs on his TV and radio shows because he needed so many to fill the time. He remembered some folk tunes that Merle Travis, a guitar player and singer, had recorded. He picked "Sixteen Tons" out from the sheet music.
"I did it three times on the show," Ernie recalled. "The mail response was terrific. Then I sang the song at the Indiana State Fair last summer. There were 18,000 people in a big hall and you could have heard a pin drop. That's when I decided I'd better record it."
The largest concrete structure in the world is Grand Coulee Dam, in Washington state.

Everybody Likes Advance Peek at What Lies Ahead

By HAL BOYLE

NEW YORK (AP)—Everybody likes an advance peek at what lies ahead.

This curiosity is a human trait, as human as having mothers-in-law or the nosebleed.

Each year the editors of the *Oddity Almanac* try to satisfy this curiosity by taking a look in their fuzzy office crystal ball and making a few pertinent forecasts for the year coming up.

Here are their picks for '56:

POLITICS—A drive will be launched to get both the Republican and Democratic parties to back a bipartisan presidential election ticket—but cooler heads will prevail. Both major party platforms will denounce ragweed and endorse motherhood, but each will remain silent on the crying question of the hour, "Shall the dandelion be made America's national flower?" It's too hot an issue for a campaign year.

BUSINESS—As usual, only more so. The nation will hit a 400 billion dollar income, and 9 out of 10 Americans will ask, "wonder who got my share?"

SEX—It will go on as usual, too. No really significant developments in this important field appear on the horizon, although no slump in its present widespread popularity is expected.

INTERNATIONAL AFFAIRS—Calm year. The cold war between Elsa Maxwell and the Duchess of Windsor will continue, but no open violence will flare. Babs Hutton will abstain from either divorce or marriage.

AUTOMATION—A new push button slot machine will make its appearance in Las Vegas, so patrons can lose their cash without wearing out their arms pulling those levers.

INDUSTRY—Motor car sales, after a brief lag, will spurt tremendously after all firms announce they will give a year's free parking space with the purchase of each new automobile. Color television will become so common you no longer will have to rush the back porch to watch a beautiful sunset; you can gallop over to your wealthy neighbor's house and see it on his TV screen. A washing machine will be developed into which you can dump your dirty children as well as your soiled laundry. An oil well will discover a Texan.

SPORTS—Britain will finally uncover a promising heavyweight boxer with a plastic instead of a glass jaw, but Rocky Marciano will break it in 1957 anyhow. The New York Yankees will lose the American League race and go on a vegetable diet. As attempt will be made to include girl watching as an Olympic sport.

WOMEN'S FASHIONS—The style world will be startled by a revolutionary new corset which zippers up the front, thus enabling a fat wife to dress without asking help from her churlish husband. Some strange new shapes in ladies' hats are in the offing, but is this news?

MEN'S FASHIONS—Charcoal-white shirts will gain favor among white collar workers who complain they can't afford laundry costs on their present white-white shirts.

HEALTH—A man will be afraid to admit he has a corn or bunion for fear people will think it is a sign he is too poor to buy a car and has to walk to work. Women will go on living longer than men, and men will go on wondering why. Three eminent doctors will say the best way to stay healthy is to avoid emotional tension, and three other equally eminent doctors will say the best way to stay healthy is to blow your top whenever you feel like it.

THE ANIMAL WORLD—Some rich alley cat will die and leave all its money to a poor old lady who once poured it a dish of cream in its friendly youth. A new dog whistle will be invented which pooches can put in their teeth and blow to inform the master it is time for him to leave the bar and walk them back home.

LABOR—As little of this as possible. New labor-saving devices will give most workers more free company time in which to ask the boss for shorter hours and more pay.

WEATHER—Feeble gusts early in the year from Washington, D.C., followed by storm clouds over Chicago and San Francisco in mid-summer. Winds of hurricane force, accompanied by most thunder, will sweep all parts of the nation in September and October. After a spectacular lightning display early in November, the rest of the year will be fair and clear.

BIRD-FEEDING HOBBY PAYS OFF—C. R. Likins, almost 75 years old, retired in 1950 as an aircraft inspector and has since parlayed his hobby into a new business—building "scientific" bird feeders. He's shown above inspecting some of his colorful "restaurants" in his Cleveland, Ohio, workshop. In action now from Canada to Texas, Likins' feeders consist of citrus, tomato juice, pickle and lard cans for containers and cut-up coat hangers for "working parts." Metal "cone" awnings protect birds from the rain. His feeders hold from a pint to as much as 50 pounds of food. He says birds he feeds eat up to 40 pounds of food a week.

Little America Again Flies Flag of U.S.

LITTLE AMERICA — The Stars and Stripes were raised again at Little America yesterday. The site of the first two camps built in the antarctic by Rear Adm. Richard Byrd was desolate. The buildings of the first camp built in 1928 are covered by an estimated 60 feet of snow and ice. The second camp is about 40 feet below us. All we found on the surface at 3 a.m. were the tops of towers and poles. The experts aboard the icebreaker USS Glacier haven't decided yet where to build the permanent

main base of the current United States antarctic expedition. The base will be used during the next three years by International Geophysical Year scientists. The experts are seeking a site that would be unlikely to break off and float to sea. The right spot would also be free of crevasses and

practical for loading cargo for ships from the bay ice up to the ice shelf. The specific area known as Little America near the Bay of Whales may not be chosen again but no one here will ever forget the macabre scene. The second settlement was built directly over the first.

Old Favorites Win Personalities Poll by the AP Members

Ike Leads All As Man of Year For Third Time

By SHERRY BOWEN
AP Newsfeatures Writer

Old favorites dominated the votes of AP newspaper, radio and TV editors for personalities of 1955 starting with President Dwight D. Eisenhower as man of the year.

The President's illness was the top story of the year, but he was a leading news maker in many other ways. Although hopes generated at the July summit Big Four conference were not sustained, Eisenhower's personality dominated the meeting. It was widely regarded as a personal triumph for him. His proposal to exchange military blueprints with Russia continues as an important factor in United Nations debates.

His atoms for peace proposals were indirectly promoted at the Geneva atom conferences. And his decisions were crucial in foreign policy dealing with Formosa, Viet Nam, the Middle East and other areas.

Preliminary jockeying for the 1956 election brought some acrimony and there were other disputes such as those over the Dixon-Yates power plan and the pay increase for postal workers. It all made news and the editors voted overwhelmingly that Eisenhower should again be the man of the year. He won the same designation in 1952 and in 1953. He also won the editors' votes in 1944 as "man of war" and in 1945 in military affairs.

Walter Reuther, labor, and Henry Ford II, industry, are names that have each appeared five times on the personalities list in the same categories. As head of the auto workers' union, Reuther's negotiations with the Ford company began a trend toward big labor contracts with a lay off wage plan.

Reuther also had an important place in the AFL-CIO merger negotiations.

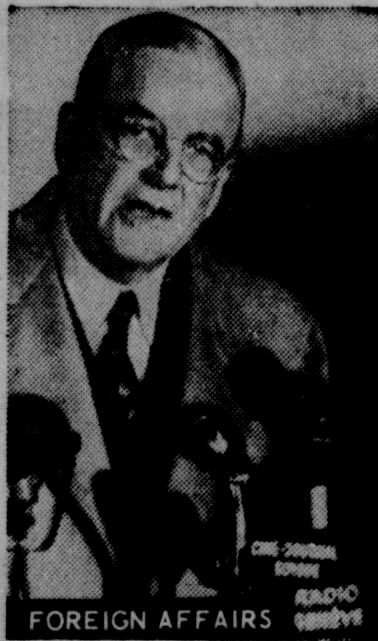

He also won the vote as labor man of the year in 1945, 1947, 1950 and 1954.

Ford won his designation as industry's man of the year in 1946, 1948, 1949, 1953 and again this year. He made news not only because of his company's sales record, but in announcing plans for the first public sale of Ford stock. It was one of the big financial stories of the year.

John Foster Dulles won designation as man of the year in foreign affairs for the fourth time — 1951, 1953, 1954 and 1955. As U. S. secretary of state, he continued to travel all over the world making

delicate adjustments in the crucial problems of foreign affairs. He went to the Manila power meeting at Bandung and visited other Asian countries. He went to the summit Big Four and the Big Four foreign ministers' meetings and traveled widely in Europe. At home, he met a constant stream of distinguished visitors.

His was the task of telling Russia it has failed to carry forward the hopes of the summit meeting.

Dr. Jonas E. Salk, originator of a polio vaccine was again man of the year in science. He won the designation last year and tied with Dr. Alfred C. Kinsey in 1953. He made news when the success of last year's broad vaccine tests was announced. His work won him many honors during the year and there was more news when manufacturing and distribution difficulties for the vaccine made trouble.

Billy Graham, man of the year in religion for the second successive year, was the other repeat in the personalities vote. He continued to win "decisions for Christ" in revival meetings in the United

States, Canada, Great Britain, France, Switzerland, Germany and the Netherlands. Record crowds continued to listen to his sermons.

Johnny Podres, 23-year-old miner's son won two Cinderella victories in the World Series to gain the editors' vote as man of the year in sports. When the series opened, Johnny had a herniated spinal disk, a sore arm and tender ribs. In his 13 previous starts as a Brooklyn Dodger pitcher he had failed to finish a game. Yet he went the distance to beat the New York Yankees in the third game of the series and did it again in the seventh game which decided the world championship.

Grace Kelly, star of the new film "To Catch a Thief," is choice

of the editors for personality of the year in entertainment. Movie critics who named her the best actress of 1954, agree that she is still one of the most promising young faces in Hollywood.

Daughter of a Philadelphia millionaire, she had brief experience in stock and on Broadway before starting her film career in bit parts. She soon got better roles and has played opposite such male stars as Gary Cooper, Clark Gable, Bing Crosby, Ray Milland and Cary Grant.

Herman Wouk, man of the year in literature, is author of the best selling novel, "Marjorie Morningstar." Previously he was best known for "The Caine Mutiny" a popular novel which developed into

a motion picture, a stage play and a television show. He started as a radio writer.

Demo Leaders Believe Adlai Is Best Bet

WASHINGTON (U)—An overwhelming majority of Democratic leaders believe Adlai Stevenson is now the best bet to win their party's presidential nomination again in 1956.

The Associated Press today toted up the results of a poll of 126 Democratic governors, state chairmen and members of the party's national committee.

The Democrats were asked: "Whom do you consider the leading candidate, in your state, for the presidential nomination?"

Their replies were broken down this way:

Stevenson 76
Kefauver 15
Lansche 3
Harriman 3
Others, or no comment 39

The poll isn't as one-sided as it might seem.

Some who voted for Stevenson stressed that his margin is so slight it may vanish before the convention is held in August.

At least five politicians couldn't make up their minds, and decided the race was a tossup between Stevenson and Sen. Estes Kefauver of Tennessee.

Gov. Averell Harriman of New York, an "inactive" candidate so far, got but three votes. One of these was from Carmine G. DeSapio, who, as a national committeeman and chief of Tammany Hall, should have much to say about how New York's 36 votes are cast in the convention.

Gov. Frank J. Lausche of Ohio, running both as a favorite son and for the U.S. Senate, picked up a home vote, plus one from Massachusetts and one from Texas.

Others mentioned as presidential possibilities:

Sen. Lyndon Johnson of Texas, Sen. Richard Russell of Georgia, Sen. Stuart Symington of Missouri, Gov. Robert B. Meyner of New Jersey and Gov. G. Mennen Williams of Michigan.

If the politicians are right, the 1956 race will be a replay of 1952, with Stevenson, former governor of Illinois, against President Eisenhower.

Yesterday, in a similar poll of Republicans, the question was asked: Will Eisenhower run again? Their answer, by a big majority, was yes.

Some samples of Stevenson's support:

Jack Toole, chairman of the Montana state committee: "I have just finished a tour of the state and I find that Adlai Stevenson is the most popular man right now." Tom E. Brown, speaking as an individual and not as the New Mexico chairman: "Stevenson is so far out in front that others don't have a look-in in New Mexico."

Monroe Sweetland, Oregon national committeeman: "Stevenson will be nominated on the first ballot."

Here's how some of the split verdicts looked:

Gov. Raymond Gary of Oklahoma: "I believe it is a tossup in Oklahoma right now between Ste-

Stevenson and Harriman with Harriman on the gain. Kefauver has some pretty strong support too." Ward Clark, South Dakota chairman: "It's a tossup between Stevenson and Kefauver with Stevenson gaining."

And this is what they're saying about the other candidates:

Mrs. Myrtle McIntyre, New Hampshire national committeewoman: "I don't think anybody can touch Kefauver in New Hampshire."

George Sardin, the Texas state chairman: "Lausche has a slight edge now on Stevenson, with Kefauver third, Harriman fourth."

Michael H. Prendergast, New York state chairman: "The party has many good men and we are proud of them, but I'm convinced that the governor (Harriman) is in the front rank."

Start With a Roast Beef Dinner

By Cecily Brownstone
Associated Press Food Editor
Start the year royally! Serve roast ribs of beef for your first-day-of-the-year dinner. Have golden-brown potatoes at hand, too. Other vegetables? We suggest buttered Brussels sprouts and cold spicy beets. Our beet relish is made with horseradish and sour cream; if sour cream isn't available in your market, serve bottled pickled beets and prepared horseradish separately.

If you like to roast your beef at a low temperature, you'll have trouble getting the potatoes you put around the meat as brown as they should be. So here are two ways to get around this culinary problem.

Wipe meat with a clean, damp cloth. If desired, insert garlic slivers in about half a dozen small gashes in fat. Sprinkle with salt, pepper and paprika. Place roast, fat side up, on a rack in an open roasting pan. Do not add water, cover, or baste. If meat thermometer is used, insert through outside fat into thickest part of muscle, so point does not rest on fat. Roast in slow (325 degrees) oven. For rare beef, roast 22 to 26 minutes per pound or until meat thermometer registers 140 degrees; for medium beef, roast 26 to 30 minutes per pound, or until meat thermometer registers 160 degrees; for well-done beef, roast 33 to 35 minutes per pound, or until meat thermometer registers 170 degrees.

About 1 hour and a half before roast is done, boil 6 to 8 medium-sized pared potatoes 10 minutes. Drain; cut in half lengthwise and arrange around meat in roasting pan. Bake 45 to 60 minutes or until tender. Makes 6 to 8 servings.

Brown 4-H Club Meets

The Brown 4-H Club met at the school Dec. 16, for a combination business meeting and Christmas party.

Reports on Food Preparations, One, and Dairy Project meeting were given. The president, Beatrice Haggard, gave a report on the 4-H Council meeting.

The group was led in Christmas carols by Kenneth Tevis, song leader. The remainder of the evening was spent exchanging gifts, playing games, and receiving a treat. Fourteen members and one visitor were present.

The next meeting will be Jan. 9 at the school.

Christmas Eve dinner guests of Mr. and Mrs. Henry Stall, Higginsville, spent the holiday weekend with their mother, Mrs. John Holloway.

Christmas Eve dinner guests of Mr. and Mrs. Walter Chipman and daughters were Mr. and Mrs. Gene Chipman and family, Perry, Robert Chipman and daughter, Mr. and Mrs. Elmo Smith, Mrs. John Chipman and David Stiles.

Mr. and Mrs. Fred Wilhelmson, Mr. and Mrs. Delbert Wilhelmson, Harrisonville, Mr. and Mrs. Junior Johnson and daughter, Mrs. Jewel Adair and daughter, Mr. and Mrs. Elbert Schott and sons, Kansas City, and Mr. and Mrs. Freeman Harbit were Christmas guests of Mr. and Mrs. F. H. Harbit.

GALA BEGINNING FOR 1954; ... roast beef with browned potatoes.

small whole white potatoes. Arrange around meat in roasting pan last 40 minutes of roasting time. Turn and baste with meat drippings occasionally. If potatoes are not brown enough, place under broiler, turning until browned on all sides. Arrange potatoes around roast on serving platter. Makes 6 to 8 servings.

Top-of-Stove Browned Potatoes
Melt 4 tablespoons butter or margarine in large skillet. Drain 2 cans (1 pound each) small whole white potatoes. Sprinkle with paprika. Cook over low heat until golden, turning occasionally. Sprinkle with salt and pepper. Makes 6 to 8 servings.

Horseradish Beets
Ingredients: 1 can (1 pound) cut beets (drained), 1 teaspoon sugar, ¼ teaspoon salt, 3 tablespoons bottled horseradish, ¼ cup commercially prepared sour cream. Method: Chop beets fine. Add sugar, salt, horseradish and sour cream, mix well, serve cold. Makes 4 servings.

Baby Enters Life Facing Two Exacting Sets of Traditions

WASHINGTON (NEA)—The new Eisenhower granddaughter enters life facing two demanding sets of traditions.

As the child of a regular Army officer — Maj. John Eisenhower, the son of the President — Mary Jean will go through life tagged as an "Army brat." This title implies precociousness and a certain lack of "roots" resulting from living on Army posts all over the world.

But the more colorful and exclusive code the child will have to conform to is that of a "White House baby."

Even before the infant is a day old tradition imposes a responsibility on a White House baby. First, the child must inspire the President of the United States to do something zany.

For example, this was the first act of the present Dean of Washington Cathedral, the Very Rev. Francis Bowes Sayre, Jr. His mother was Jessie Wilson Thayer, daughter of President Woodrow Wilson. He was born in a guest room on the south side of the second floor of the White House Jan. 15, 1915.

Unofficial protocol rules that the baby does not actually have to be born in the executive mansion to be rated a "White House baby." The Eisenhower granddaughter was born at Walter Reed Hospital.

Actually, only one child of a president has been born there. Esther Cleveland holds that distinction. She was born during the second term of Grover Cleveland on Sept. 9, 1893.

A new set of responsibilities will face the youngster as soon as she reaches what parents know as the "age of extended destruction." In this responsibility she will be ably assisted by her brother David, 7, Barbara Ann, 6, and Susan, 4.

The precedent for any damage the Eisenhower brood might do was set by the famous "White House Gang." This was a ma-rauding band of high spirited youngsters led by the youthful Quentin Roosevelt during the Theodore Roosevelt administration.

The three grandchildren of President Hoover were more gentle. But the mob of youngsters which roamed the White House grounds during the administrations of Franklin Roosevelt set its own standards for unbridled activity.

Still another chore for the new Eisenhower grandchild is to inspire the President to invent loving names. Crusty President Andrew Jackson was moved to call the kids which shared the executive mansion with him "the sunshine of the White House." He also referred to them as "the apples of my eyes."

They were the four children of Mrs. Emily Tennessee Donelson, wife of Maj. Andrew Jackson Donelson. Mrs. Donelson was the niece of the deceased wife of the President and served as his official hostess.

President and Mrs. John Quincy Adams had so many relatives living with them during his administration they didn't bother to record births.

Finally, if there are any questions about the code under which White House babies must operate, the oldest living expert on the subject is the Countess Julia Grant Cantacuzene. She is the granddaughter of U.S. Grant, born in the Lincoln Room of the White House.

She is now living quietly in a small apartment here in Washington.

Happy New Year's Eve Supper

By CECILY BROWNSTONE
Associated Press Food Editor

Here's your plain and fancy New Year's Eve Supper. Plain because it features substantial slices of good turkey and cranberry sauce, deviled eggs and potato salad. Fancy because it also has a Jellied Fruit Ring. Slices of light fruit cake—from your holiday cache—and hot coffee will make a fine ending.

The turkey slices can come from a bird you have roasted the standard way. Or if you are fortunate enough to be able to buy turkey parts, or have them in your own freezer or locker, you can use the following Poached Turkey recipe. The jellied cranberry sauce for the center of the turkey platter may be canned or made at home in a pretty mold. For the deviled eggs and potato salad, use your own favorite recipes. The Jellied Fruit Ring will take a little doing. Here's how.

New Year's Eve Supper . . . talks turkey

POACHED TURKEY

Ingredients: 6 pounds boneless turkey breast roll and thighs, 1 tablespoon salt, 1 teaspoon white pepper, ½ cup turkey broth, extra cold turkey broth.

Method: Arrange the turkey meat, skin-side up in a heavy pan with the pieces of dark meat on the bottom. Sprinkle with salt and pepper. Add the ½ cup broth, or a little more if necessary, so it just covers the bottom of the pan. Cover tightly. Simmer (do not boil) until meat is just fork-tender—2 to 2½ hours. Cool broth and turkey meat separately as rapidly as possible. Cover turkey meat with cold broth and refrigerate promptly.

JELLIED FRUIT RING

Ingredients: 2 packages lemon gelatin, 1 large red apple, ¼ cup lemon juice, 1 carton (12 ounces) cottage cheese (small curd style), 1 package lime gelatin, salad greens, salad dressing (if desired).

Method: Make up lemon gelatin according to package directions; cool but do not refrigerate. Pour about ¾ cup of the cool gelatin into a 2 to 2½-quart mold. Refrigerate until firm. Quarter and slice apple very thin; do not peel. Dip apple slices into lemon juice to keep from discoloring. Place about 8 slices on top of the firm gelatin in the mold. Pour more lemon gelatin over apples to barely cover them but not enough to make them float. Refrigerate again until firm. Chop remaining apple slices very fine. Mix chopped apple with all but ½ cup of the remaining lemon gelatin and pour into mold. Return to refrigerator until firm. Drain cottage cheese and mix with remaining ½ cup lemon gelatin. Pour over firm gelatin in mold. Refrigerate until firm. Make up lime gelatin; cool but do not refrigerate. Pour over firm cottage cheese layer. Chill until firm. Serve garnished with salad greens and, if desired, with a favorite salad dressing. Makes about 10 servings.

DEVILED EGGS

Here are hints that will be helpful in preparing the stuffed eggs. If you want to put the yolk mixture through a pastry tube, be sure to sieve rather than mash the eggs with a fork.

Deviled ham or minced anchovies.

District Judge Orders End to Segregation in Low Rent Housing

ST. LOUIS (AP)—U. S. District Judge George H. Moore today ordered an end to segregation in low-rent public housing projects in St. Louis.

The order was in answer to a suit filed by a group of Negroes who said they applied for admission into a project now occupied only by whites in 1951 and 1952, but that they had not been assigned quarters.

Judge Moore ruled the plaintiffs were eligible for public housing and should be admitted without regard to race or color.

His two-point order also required that units now assigned exclusively to Negroes be opened to whites.

The judge said the St. Louis Housing Authority, which built and managed the projects, has a policy of segregating tenants by race which "is a violation of the Constitution and laws of the United States."

He pointed out that both Negroes and whites formerly lived in the areas now occupied by the projects and that the money for the projects came from taxes collected from both races.

New Tax Forms Are In the Mails

PROVIDENCE, R.I. (AP)—Russell G. Harrington, Rhode Island commissioner of internal revenue, says new income tax forms are in the mails.

He told a testimonial dinner in his honor last night that "we think they are most understandable than any we have produced in recent years."

However, he said his office doesn't claim they are the ultimate in simplicity. The most simplified form, he suggested jokingly, would consist of the following four lines:

1. How much money did you make last year?
2. How much did you spend?
3. How much do you have left?
4. Mail it to the internal revenue service.

vies will add zest to the egg-yolk stuffing along with soft butter, lemon juice, prepared mustard, Worcestershire sauce, salt, pepper and mayonnaise.

A sprig of parsley or a tiny star cut from canned pimiento will look pretty perching in the center of each stuffed egg half.

CRANBERRY SAUCE

If you use a can of jellied cranberry sauce for the center of your turkey platter, you can make it look like a fat candle by standing it upright, rippling the top with a knife or spoon and inserting a "wick" made from a leafy yellow celery heart.

Juan Bramuglia Is the Man To Be Watching in Argentina

BUENOS AIRES (AP)—Argentine politicians and labor leaders trek these days to a simple brick house at 1682 Juncal St.

He Seeks No Office But Voters Listen

PARIS (AP)—One of the biggest names in the French election campaign is not even a candidate.

Pierre Poujade, who vaulted into the political arena by espousing tax relief for small merchants, is speaking for candidates pledged to support his ideas.

Groups of hecklers have been invading many election meetings, making it difficult for the candidates to speak. Most reports refer to these groups as Poujadists, but Poujade says his movement has no monopoly on the discontent in France and he can't help it if the people are unhappy and noisy.

He has three related political parties, with hundreds of candidates in the field. They are allied under the French election system, so there is no question of stealing votes from one another. Estimates of the number of deputies which the parties might elect next Monday range from 3 or 5 up to the 30-50 figure which Poujade himself mentions.

At one meeting he lectured his candidates for over two hours on how to campaign.

"Some people will try to draw you into a discussion of programs," he warned. "Don't do it."

The way to get the voters fighting mad against French governments since World War II, he explained, is to tell how they squandered billions collected from taxes and from what he called "the American loan."

Both left and right-wingers accuse the Poujadist element of roughing up their meetings. Poujade spent a considerable portion of one speech advising followers how to organize flying squads for the defense of their own meetings.

Kansas Legislature Will Be Asked For \$262,900,000 Budget

TOPEKA, Kan., (AP)—The budget session of the Kansas Legislature will be asked to appropriate \$262,900,000 for the 1957 fiscal year.

Gov. Fred Hall said yesterday Hall said his proposed budget would require only \$9,610,564 in additional revenue.

The governor's budget request asks for \$25,800,000 more than he recommended for the 1956 fiscal year.

Building Razing Now Underway for Hiway

ST. LOUIS (AP)—The razing of old buildings along a three-quarter mile stretch to clear a path for the downtown leg of the Mark Twain Expressway is underway.

During the past three weeks crews have been salvaging such material as pipes from the buildings. This has been completed in about a dozen structures.

The path will be from near Third and St. Charles streets to Seventh and Cass Avenue. A 3,300-pound steel ball began battering down buildings yesterday.

The job is expected to take from three weeks to a month.

Visit in Versailles

Mr. and Mrs. Kenneth Chestnut and family, Lake Forest, Ill., were guests recently of Mr. and Mrs. Jessie Morris, Versailles. The family was enroute to their new home near Oklahoma City where he will be an associate manager of a farm.

Internal Revenue Will Help in Making Out Income Tax Returns

WASHINGTON (AP)—The Internal Revenue Service stands ready to fill out your income tax returns for you next year, as in years past.

Russell C. Harrington, the new internal revenue commissioner, yesterday countermanded orders which would have barred such help to all but the illiterate, the physically handicapped and persons unable to read English.

The original orders were issued to all regional and district tax offices last Oct. 17 at the direction of Harrington's predecessor T. Coleman Andrews. They had evoked some protests in Congress.

Those instructions said the taxpayer assistance program should be limited to showing citizens how to prepare their returns, but should not furnish "unlimited service to all taxpayers."

Harrington told his subordinates yesterday the revenue service's policy is "to provide all taxpayers with all of the advice and assistance they need in preparing their returns." He said the previously issued instructions were "too restrictive."

4-H Club Receives US Rubber Co. Award

Uncle Sam's 4-H Helpers Club of the Glensted community was one of seven 4-H clubs in Missouri to receive the Recreational-Rural Arts Award of \$20 offered by the US Rubber Co., which will be used for recreational equipment.

Mrs. Hiram W. Shepp was the community leader; Miss Dorothy Nolting, president; and John Gerlt, recreation leader.

Some of the activities besides the regular club meetings were Christmas caroling to shut-ins; Christmas basket of food, clothing and toys for a needy family; sponsoring a benefit dance for the polio fund; going on hikes and learning the names of weeds; taking a log to the sawmill and having it made into a table for the Glensted community park; cleaning the park and making flower beds; participating in Share the Fun contest; making a booth at the Stover Fall Festival; participating in the State 4-H Club week, 4-H camp, the conservation and health camp, Achievement day, the county and state fairs. They also had a parents' night.

Rev. Chaney To Pastorate At Cassville

By Mrs. Verna Palmer

The Rev. Harley W. Chaney, formerly missionary of Harmony Baptist Association, has accepted pastorate of the First Baptist Church at Cassville. Rev. and Mrs. Chaney and daughters moved the first of

December to Cassville and are residing in the parsonage.

Rev. Chaney is the son of Mr. and Mrs. George Chaney of near Green Ridge.

Mr. and Mrs. Nathan McNutt and daughters have moved to the farm they recently purchased from A. E. Autenreith southeast of Green Ridge. Mr. and Mrs. McNutt and family formerly resided at Palsade, Neb.

Miss Karen Smith, who is a student at Central College at Fayette, is spending the Christmas holidays with her parents, Mr.

and Mrs. Gerald Smith and son, Duane, southeast of town.

Mrs. J. W. Harding has returned to the home of her daughter, Mrs. H. A. Hite and Dr. Hite, following a two weeks visit at the home of her son, W. C. Harding and Mrs. Harding in Sedalia.

Mr. and Mrs. I. B. Perdue and sons entertained guests at a Christmas dinner Sunday, Dec. 18, at their home in Green Ridge. Guests present were: Mr. and Mrs. Guy Ridenour, and family and Miss Doris Pooler, Green Ridge; Mr. and Mrs. Eugene Ridenour and Mr. and

Mrs. Vance Turner and son, Kansas City, and Newton McDonald, Knob Noster.

Ernie Durrill, U.S. Army, stationed at Fort Benning, Ga., is spending the Christmas holidays with his parents, Mr. and Mrs. Otha Durrill who live southeast of town.

Mr. and Mrs. Byron Myers and daughter, Santa Monica, Calif., arrived for a visit at the homes of their parents, Mr. and Mrs. R. A. Stark and Mrs. Dixie Myers of the Green Ridge community. Before coming to Green Ridge they drove

to Islamorada, Fla., where they were guests for a few days of Mrs. Myers' sister and family, Mr. and Mrs. J. J. Muller and daughter.

Dr. H. A. Hite, Green Ridge, attended the annual Christmas dinner of the staff of the Windsor Hospital Saturday evening.

Robert Calvert, U.S.N., stationed at Memphis, Tenn., spent the past week visiting at the home of his parents, Mr. and Mrs. F. L. Calvert.

Feed Bags Are Turned Into Lovely Quilts and Curtains

Discussing the art of quilting with feed sacks are prize winners Mrs. Norman MacNeil, right, of Midvale, Utah, and Mrs. Julius Jones of Woods County, Okla.

By Kay Sherwood
NEA Staff Writer

Other materials compete with cotton bags for the privilege of totting flour, feed and fertilizer, but few of them can lead as diversified a life after the contents are dumped.

The farmer who scatters the feed today may recognize the source of the perky new kitchen curtains he sees tomorrow. Or he may not. Such are wonders his wife can perform with a sack, ingenious needlework and perhaps a packet of dye.

Each year skilled sewers competing in the cotton bag sewing contest prove that the limit of what can be done with pretty percales, calicos, osnaburgs and muslins hasn't yet been reached.

Final judging of entries, all state fair prize winners, was held recently in Chicago. Mrs. Norman MacNeil of Midvale, Utah, took first prize, and Mrs. Julius Jones of Woods County, Okla., won the second prize.

Visiting with the two winners and studying the other outstanding entries, one fact is immediately apparent. These ladies are not strangers to the business end of a needle nor to the tricks of feed-bag sewing.

About the most fabric you get from one sack (the 100 lb. size) is a yard and a third. It takes patience, skill and luck to find and assemble several yards in one design for a single project.

Source of supply for the two winners is no problem. Mrs. MacNeil draws from ranching relatives and friends. Mrs. Jones draws from her own wheat and cattle ranch. But bags, clean and empty, are sometimes found on sale in stores for a few cents apiece.

Plain white sacks take well to dyeing. Mrs. MacNeil advises dyeing all the bags to be used for one project at one time to avoid variations in color. Whether new

or used, cotton bags must be washed before sewing to free them of sizing and shrink the fabric.

The quilts included in the exhibits were especially notable, I thought, and so did the judges. Some of the designs were original and some were fresh-looking adaptations of older designs.

Mrs. MacNeil's hand-quilted, crib-sized coverlet is white with a blue border and an appliqued and embroidered design of Jack and Jill.

I noted, too the skill with which Mrs. Jones had worked out her original design—a green pine tree alternating with a provincial figure against a cream-toned background.

Idea for the figure came from an illustration and was designed on paper with water colors before the pattern and fabric were cut. Scraps left from the figure were used to make inserts along the border.

Another handsome quilt that would do a modern bedroom proud was pieced from sacks dyed in shades of gray as a background for brilliant stylized flowers, pieced from other bags. Still another quilt, this one for a crib, was a masterpiece of careful piecing of a design plucked from a child's coloring book. It featured happy children riding on a carousel.

I also picked up a curtaining idea more attuned to my simple sewing than the intricate quilts. One bag material, osnaburg, is a heavy, almost coarse, texture flecked with brown. This, given the simplest heading and hem and trimmed with ball fringe, made a handsome pair of curtains that would look well on modern windows.

Incidentally, the material was first dyed lime green. I was told by one sewer to wash and restarch osnaburg but not to bleach it, since it takes the character out of the texture if you do.

Pine Panels Worthy of Good Care

PINE PANELING for any room, basement, attic or main floor calls for proper care before installation. According to the Western Pine Assn. such lumber should be handled like flooring.

FOR SEVERAL days your knotty pine should be stacked between spreaders in the room where it will be installed. This lets air circulate around it and conditions the wood to the room.

AFTER EACH piece is cut to size, it is stained, painted or sealed on both surfaces and all edges. This will prevent warpage and will insure the wall appearance you want.

Guard Duty For the Eskimo Scouts More Than Mere Drill

By GAIL DUGAS
NEA Women's Editor

NEW YORK —(NEA)— While we're storing the garden furniture, winterizing the car and putting away the summer cottons, we practically never think of protecting ourselves against the annual onslaught of cold, wind and snow.

For winter brings on increased illness and it's up to the housewife to protect her family in every possible way.

Best preparation for a healthy winter is to insist that everyone get a complete physical examination.

Next, turn your attention to the one member of the family who's most vulnerable—your husband. Cold weather brings on the highest incidence of heart attacks and ulcer cases because of increased business pressures, the holiday whirl and overexertion from shoveling snow, stoking the furnace and pushing stalled cars.

Help your husband by giving him a relaxed home life. Leave the extra chores (moving furniture and minor repairs) to a handyman.

Diet is essential to good health. There's much truth in the old saying that the lifeline is in proportion to the waistline. Cut down on the fats and starches you serve your family and give them proteins, minerals and vitamins contained in lean meat, fish, vegetables and fruits. And to increase resistance to cold weather, here's a tip from U.S. Army physicians: large quantities of Vitamin C make it possible to keep up body temperatures during freezing weather.

It's best to avoid stuffing yourself (or your family) during the holidays. But in case of a sluggish digestive system resulting from long sessions with knife and fork, keep a treatment like senokot handy.

As a matter of fact, your medicine cabinet should be neat, clean and well-stocked with nose drops, cough medicine, aspirin, ointment for sore muscles and any other drugs your doctor may recommend.

Teach the kiddies that it's no joke when they leave home with galoshes, scarves, hats and gloves and hide them away someplace until they're ready to come home again. This is a favorite practice of the school crowd and it can lead to severe colds, influenza and even pneumonia.

And when you've got the rest of the family all lined up, give some attention to yourself. See to it that you get adequate rest during and after the work and excitement of the holidays. If you must let some of the polishing and scrubbing go undone in order to get eight hours' sleep, do so. You can't catch up on rest and it's all too easy to fall into the habit of cheating yourself.

Wife Wants to Help The Divorce Along

SHAWNEE, Okla. (AP)—A woman wrote to the Pottawatomie County clerk's office this week, asking whether her husband had started divorce action yet. She wasn't angry. Instead, she was willing to help.

In her letter the woman asked: "Will you give me the name of his lawyer so I can pay for the divorce. I would like him to go ahead with it so he can be free for the girl he is planning on marrying."

The clerk's office discovered the divorce was granted a week ago.

Andrew Carnegie distributed nine tenths of his fortune in gifts, among which were 8000 church organs, 3000 libraries and 500 universities and colleges.

Wisdom Of The Ages

Famous words, "Might Have Been"
How sad the story told
But one in ten
Who might have been
Is richer when he's old

If every young man could look into a crystal ball and correctly see his own future, his first act would be to open a savings account at the Sedalia Savings and Loan Association. If you are a young man there is such a crystal ball. The old people of today were once just as young and likely just as wise as you are. Their life can be your crystal ball for the future. The Sedalia Savings and Loan Association has found that those marked with greatest success started by saving. You also can travel the highway to success with an insured savings account at the

You can help your child to guard against winter colds by teaching him to dress for rough weather. Galoshes, hat, gloves and scarf are essential in warding off cold and dampness.

Over Hundred At Christmas Dinner

By Mrs. Oscar Paul

CONCORDIA — The Burlington Mfg. employees, Concordia, held their annual Christmas dinner at the VFW hall Dec. 23. After the dinner, carols were sung and a gift exchange enjoyed. Approximately 105 employees attended.

Mr. and Mrs. Ray Don Oetting and baby, Wichita, Kan., arrived Dec. 20 to spend the Christmas

holidays with their parents, Mr. and Mrs. Arthur Oetting and Mr. and Mrs. Alvin Heerman, Concordia. Oetting has been appointed to the Wichita Patrolman department.

Mr. and Mrs. Earl Brockman and son, Concordia, spent the Christmas holidays with their son, Pvt. Steven Brockman, stationed with the Marine Corps at Camp Pendleton, Calif.

Lois Ann, infant daughter of Mr. and Mrs. Lambert Kirchoff, was baptized in St. Paul's Lutheran Church Sunday by the Rev. O. E. Heilman. Her sponsors were Miss Louise Meyer, Cole Camp, and Mrs. Charles Boteler, Concordia. Dinner guests were entertained later.
